When the roll is called of those
who deserve resounding success
by their hard work and devotion,
You surely will answer ‘aye’!
But the race is not always
won by the best horses;
Accidents do occur.
It is the wish of the Postgraduate School
that the efforts of most of you be crowned
with resounding success in the quest for truth
and knowledge in the Nation’s Premier
Institution of Higher Learning.

UNIVERSITY OF IBADAN - AN INTRODUCTION

The University of Ibadan was founded in 1948 as a College of London University, with 104 students spread among three Faculties: Arts, Science and Medicine. It became an autonomous, degree-granting institution in 1962. Today, the University has a total enrolment of about 20,000 students shared among the following faculties: Arts, Science, Basic Medical Sciences, Clinical Sciences, Dentistry, Public Health, Pharmacy, Agriculture and Forestry, the Social Sciences, Education, Veterinary Medicine, Technology, Law as well as an Institute of African Studies, Institute of Education, Institute of Peace and Strategic Studies, Africa Regional Centre for Information Science, Institute of Advance Medical Research and Training and the Centre for Literacy Training and Development in Africa. The enrolment of postgraduate students used to be about 40% but it is now over 50%.

The University of Ibadan over the years has been highly ranked in Nigeria and in Africa. For instance, the university was ranked by the National Universities Commission as the Overall Number 1 in its 2004 Ranking of Nigerian Universities. Ibadan was also ranked No 1 in Dentistry, No 1 in Medicine/Health Sciences; No 1 in Pharmacy, No 1 in the Sciences, No 1 in Veterinary Medicine; No 2 in the Social Sciences, and No 3 among Research Universities. Moreover, Ibadan was ranked No 1 in PhD Graduate Output. Recent Global ranking of Universities places Ibadan the 493rd in the world and 4th in Africa. We are still moving on.

Postgraduate programmes at Ibadan have been so successful for a variety of reasons. These include:

1. Financial autonomy

   The funds realised from postgraduate students at the University of Ibadan are ploughed back to service postgraduate training and research by allocating the greater percentage of such fees into the academic departments and the Postgraduate School.

2. In order to encourage postgraduate students endowed with outstanding research potentials to undertake full-time research leading to a PhD of the University of Ibadan, the Postgraduate School has established two schemes, namely:

   (a) The University of Ibadan Postgraduate School Scholarship Scheme

   (b) The University of Ibadan Postgraduate School Teaching and Research Assistantship Scheme

3. Funding Support to Academic Units for the Publication of Learned Journals no less than 15 academic journals are supported annually
4. Maintenance of an active academic environment through the Interdisciplinary Research Discourse Series.

5. A comprehensive review of the regulations governing higher degrees. After extensive discussions and deliberations by various sub and Ad-Hoc Committees of the Curriculum Committee, Executive Committee and the Board of the Postgraduate School, Senate approved “The 2004 Regulations Governing Higher Degrees” in the University of Ibadan (ISBN 978-37883-0-2), the document was amended in 2014. The entire postgraduate curriculum is now being reviewed and revamped taking into cognisance recent trends and developments in the various disciplines offered at the University.

6. Workshops on Aspects of Research Methodologies are organized on a regular basis for postgraduate students and teachers: such workshop focus on issues which include the following:

   - Grant making;
   - Conceptual frameworks in Research;
   - Use of Statistics and ICT;
   - Writing a PhD thesis;
   - Writing academic papers;
   - Development of a unique University of Ibadan Manual of Style (UIMS);
   - Ethics in Research.

7. Research publications.

8. Information Communication Technology Support to all the academic units (Departments, Faculties, Institutes, Centres and the College of Medicine) to aid in teaching, research and publications.

   The University has three postgraduate halls of residence with the capacity of 2,800 bed spaces. Most of these halls lie within walking distance University Library of learning facilities. Two more are to be constructed and completed next year.

   The University houses an Arts Theatre and a resident performing company which, all the year round, produces a wide variety of plays generally available in the town (with a population of over two million people, the largest in black Africa). The university has several sports facilities including the sports complex which has soccer, hockey, cricket, basketball, volleyball pitches, and a gymnasium. Courts are provided for tennis and squash. There is also an Olympic-size swimming pool. The campus is well-laid out with clear inscriptions on roads and monuments. It is a habitat for several rare and endangered plant species.
THE INFORMATION CONTAINED HEREIN IS INTENDED AS A GUIDE TO
PROSPECTIVE APPLICANTS FOR ADMISSION. CANDIDATES ARE ADVISED UPON
ADMISSION TO CONSULT DEPARTMENTAL AND FACULTY BROCHURES AS THEY
RELATE TO THEIR RESPECTIVE PROGRAMMES AND COURSES OF STUDY.

All correspondences should be addressed to:

The Secretary,
Postgraduate School,
University of Ibadan,
Ibadan,
Nigeria.

Prof. J. O. Babalola
Dean
JUNE 2018

1. ADMISSION

General Regulations Governing Admission to Higher Degree Programmes

(a) Candidates for admission to higher degree programmes shall normally
be graduates of the University of Ibadan or other Universities/Institutions recognised by the Senate. Admission shall be
made by the Postgraduate School on the recommendation of the
appropriate Faculty Postgraduate Committee.

(b) Candidates without any previous higher degrees in the relevant
discipline may be admitted only to either the Degree of Master or the
Professional Degree of Master.

(c) Candidates with recognised “Research Higher” Degree in the relevant
discipline may be admitted to the M.Phil or Ph.D. degree programmes
as appropriate, on the recommendation of the appropriate Faculty
Postgraduate Committee.

(d) Where, in respect of an otherwise eligible candidate with a higher
degree, a firm recommendation for admission to the Ph.D. degree
programme cannot be made, a Faculty may recommend that a candidate
be admitted provisionally to the M.Phil/Ph.D. programme pending an
assessment report. Such an assessment shall be made by a panel set up by the Faculty Postgraduate Committee on the recommendation of the student’s department and shall take place not later than the end of the first semester of registration.

2. TYPES OF ADMISSION

(i) Full-Time Admission

Full-time admission can be offered only to candidates who satisfy the Postgraduate School that they are not in employment, or that they have been released by their employers to undertake full-time studies. Candidates found to have made a false declaration in this regard shall be asked to withdraw from the University.

(ii) Part-Time Admission

Candidates may be admitted to part-time registration, if they are on the academic staff of the University or can satisfy the Postgraduate School that facilities for their work as part-time students are adequate. Candidates applying for part-time registration may be asked to show evidence of release by their employers.

(iii) Admission as Occasional Students

Candidates who satisfy the minimum entry requirements for higher degree programme and are recommended by the Faculty Postgraduate Committee may be admitted as occasional students, but shall not be awarded a degree of the University of Ibadan. This type of admission is also open to candidates registered for higher degrees of other Universities, recognised by Senate.

3. APPLICATION FORMS

Requests for application forms into higher degree programmes of the University are normally made every year. The procedure for obtaining Application Forms is available at www.pgschool.ui.edu.ng.

Application forms cost ₦13,000 for academic programmes and ₦18,000 for professional programmes. Applicants for the degree of Master and Postgraduate Diploma are to pay an extra ₦3,000:00 for test of proficiency in English Language.
4. GUIDELINES FOR FILLING APPLICATION FORMS

(a) All application forms are to be submitted on-line. Applicants are to approach any of the Banks listed on the invoice. Note that E-channels are available at GTB and Skye Bank PLC.

(b) Incomplete information from an applicant may delay or halt action on such application.

(c) A candidate may apply to only one department or programme.

(d) Applicants are to upload their relevant credentials and submit along with their application electronically.

(e) Acknowledgement of Application

Applicants would be informed electronically (through the e mail addresses provided in the electronically filled Application form) of progress in the processing of their forms.

(f) Letters of Recommendation

The Postgraduate School, University of Ibadan, requires three letters of recommendation from faculty members or others well acquainted with the student’s academic work. Please note that the referee forms are available on-line, to be completed and submitted electronically.

(g) Transcripts/Certificates

Official transcripts of all degrees completed are to be mailed directly to the Postgraduate School. If the Registrar of an applicant’s University will provide an official copy to the School directly, applicants must enclose along with the application an unofficial or student’s copy of the transcript for temporary reference. To prevent delays, applicants should make adequate arrangements with their Registrars to provide transcripts before the stipulated deadline.

5. ADMISSION CRITERIA

The University of Ibadan does not discriminate on the basis of race, colour, sex, sexual orientation or preference, age, religion, national or ethnic origin, or physically challenged in the admission of students to all rights, privileges, programmes and activities generally accorded or made available to students
in the administration of its educational policies and scholarship facilities. Applications are considered on a competitive basis by the Faculty Admissions Committee which evaluates all available information and selects the best qualified applicants from those whose credentials meet the standards for admission.

In every case, decisions are reached through a comparison of the academic merits of all applicants applying in the same field. A bachelor’s degree in a broad programme of general education is normally prerequisite for admission but is not sufficient in itself. Foreign applicants are expected to have bachelor’s degree with at least a Second Class Upper Division from Universities recognised by the Senate. Since the language of instructions in the University of Ibadan is English, proficiency in reading, writing, speaking and understanding English is required for admission. Applicants for the degree of Master and Postgraduate Diplomas shall be required to sit for a proficiency test and obtain a mark of at least 40% before their application can be considered. Academic records are also examined to determine whether the applicant has established a firm basis for graduate work in the proposed field of study. Letters of recommendation or Referee’s Reports are given very serious consideration.

When an applicant fails to provide required documents, (transcripts, etc) his or her admission chances suffer in relation to those whose credentials are complete.

**Interviews**

Interviews/subject tests may be required for some programmes. The relevant Departments in collaboration with the Postgraduate School’s Admission Office will arrange such interviews/tests.

**Policy on Deferred Admission:**

The Postgraduate School, University of Ibadan, does not entertain deferment of admissions. Any offer of admission not taken up in the particular year it is given, may be considered to have lapsed. The affected candidates may however, reapply in the following academic year if they are still interested in their respective course of study.

Such applications will be considered afresh along with other new forms. No bias would however be introduced.

6. AVAILABLE RESEARCH DEGREE PROGRAMMES

(a) Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil), Master of Public Health (M.P.H.), Degree of and other Master degree such as M.A., M.Sc., M.Ed, LL.M, These are available in the following Faculties/disciplines:
(i) **Arts**

Islamic Studies; Arabic Language and Literature; Archaeology; Anthropology; Classics; English (Literature & Language); History; Communication & Language Arts; Linguistics & African Languages; Nigeria Languages (Yoruba); French Studies, Translation, Comparative Literature, Cultural Studies, European Studies; Philosophy, Religious Studies; and Theatre Arts.

(ii) **Science**

Archaeology; Anthropology; Botany; Microbiology; Chemistry; Industrial Chemistry; Computer Science; Geography (Physical); Geology; Mathematics; Physics; Statistics; and Zoology.

(iii) **Medicine**

(a) **Basic Medical Sciences**

Anatomy; Biochemistry; Chemical Pathology; Haematology; Pharmacology & Therapeutics; Physiology; and Virology.

(b) **Clinical Medical Sciences:**

Anaesthesia; Nursing; Psychiatry; Paediatrics; Physiotherapy Surgery, Community Medicine, Occupational Health, Radiology, Obstetrics and Gynaecology, Otorhino-laryngology, Ophthalmology, Radiotherapy, Biomedical Education, Global Health, Radiation Oncology.

(c) **Dentistry**

(d) **Public Health**

Biostatistics; Epidemiology and Medical Statistics; Epidemiology; Field Epidemiology; Field Epidemiology Practice; Environmental Health; Human Nutrition; Medical Demography; Health Promotion and Education; Population and Reproductive Health Education, Reproductive and Family Health, Health Policy and Management, Health Services Administration, Institute of Child Health.

(iv) **Pharmacy**

Pharmaceutics and Industrial Pharmacy; Pharmaceutical Microbiology; Clinical Pharmacy; Pharmaceutical Chemistry; Pharmacognosy.
(v)  **Faculty of Agriculture**
Agricultural Economics
Agricultural Extension and Rural Development
Agronomy
Animal Science
Crop Protection and Environmental Biology

(vi)  **Faculty of Renewable Natural Resources with the following Departments**
Aquaculture and Fisheries Management
Forest Production and Products
Social and Environmental Forestry
Wildlife and Ecotourism Management

(vii)  **The Social Sciences**
Geography (Human); Political Science; Sociology; Psychology.

(viii)  **Faculty of Economics**
Department of Economics

(ix)  **Faculty of Environmental Design and Management**
Urban and Regional Planning.

(x)  **Education**
Adult Education; Literacy Training and Development; Educational Management;
Guidance and Counseling; Counseling Psychology; Special Education; Library, Archival
& Information Studies; Human Kinetics & Health Education; Arts and Social
Sciences Education; Early Childhood and Educational Foundation; Science,
Mathematics and Technology Education; Centre for Media Resources Studies.

(xi)  **Africa Regional Centre for Information Science (ARCIS)**
Development and Evaluation of Information Systems; Information Technologies;
Development Information Systems; Information Policy and Ethics; Information
Resources Management; Information Products and Services; Informetrics; Information
Economy and Society; Scholarly Communication in Science and Technology;
Education for Information Science.
(xii)  
Centre for Educational Media Resource Studies
Master of School Media (MSM) (Academic)
Master of Media Resource Management (MMRM) (Professional)

(xiii) Institute of Education
Educational Evaluation (Construction and Validation of Measurement Instrument; Evaluation of Educational Achievement; Public Examinations, Programme Evaluation; Curriculum Evaluation and Psychological Testing) In-Service M.Ed Programmes in Curriculum Development and Educational Evaluation (The M.Ed in-service Programme presently runs in Ibadan, Port-Harcourt and Lagos). The programmes is for four semesters.

(xiv) Veterinary Medicine
Veterinary Anatomy; Veterinary Medicine; Tropical Veterinary Medicine; *Veterinary Microbiology; Veterinary Parasitology; Veterinary Pathology; Veterinary Physiology; Veterinary Pharmacology; Veterinary Surgery, Veterinary Reproduction; Veterinary Public Health & Community Medicine (Master of Veterinary Public Health, Master of Preventive Veterinary Medicine, Veterinary Pharmacology and Toxicology, Veterinary Pharmacology, veterinary theriogenology and M.Sc. Epizootiology). MVSc. Veterinary Medicine Option in Avian Medicine Companion Animal Medicine, Fish and Aquatic Medicine and Food Animal Medicine.

* The M.Sc. Veterinary Microbiology runs for two sessions.

(xv) Technology
* Agricultural and Environmental Engineering; Wood Products Engineering; Food Technology; Soil and Water Conservation.

** Industrial & Production Engineering; Petroleum Engineering; Civil Engineering;

***Mechanical Engineering; Electrical/Electronic Engineering.

* Those whose first degrees are NOT in Agricultural Engineering will be required to spend an additional two semesters on the programme.

** Those whose first engineering degrees are NOT in Industrial Engineering will be required to spend an additional semester on the programme.
*Candidates whose first degrees are NOT in Petroleum Engineering will be required to spend an additional two semesters on the programme.

*** M.Sc. Mechanical Engineering is a three semesters full-time or six semesters part-time programme.

(xvi) **LAW**

**Master of Law (LL.M)**

The postgraduate degrees available in the faculty of Law are as follows:

Doctor of Philosophy (Ph.D), Master of Philosophy (M.Phil) and LL.M. The LL.M Degree Programme is conducted on an interdepartmental basis.

**Admission Requirements:**

Admission is open to any holder of Bachelor’s Degree in Law of University of Ibadan or of other approved Universities recognized by the Senate. In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ level credits at TWO sittings including merit or credit in English Literature. You will be required also to produce your Call to Bar and Law School Certificates.

Candidates may be required to undergo a selection process. They are therefore encouraged to provide their e-mail addresses and telephone numbers to facilitate invitation for the interview.

(xvii) **Institute of African Studies**

Anthropology; African History; African Law; African Music; African Visual Arts/Art History; Traditional African Medicine and Belief Systems; Cultural and Media Studies- Sub-units of specialization: a) Performance Studies b) Literary Studies c) Translation and Creative; Gender Studies; Diaspora and Transnational Studies.

The courses are available at the following levels: M.A., M.Phil, M.Phil/Ph.D, and Ph.D in the respective units and sub-units of Institute of African Studies.

(xviii) **Centre for Entrepreneurship and Innovation**

Professional Master (M.Sc in Entrepreneurship Studies)
Academic Master (M.Sc in Entrepreneurship Education)

(xix) Institute for Peace and Strategic Studies

Master of Humanitarian and Refugee Studies (M.H.R.S.), Peace and Conflict Studies (M.A.), Master of Science (MSS) Degree in Strategic Studies, Professional Master (MPBD) Degree in Peace Building and Development, Professional Master (CPM) in Cultural Production and Management, Master In Disaster Risk Management (DRM).

(xx) Other Programmes

(a) Doctor of Medicine (M.D.)

The degree programme is available in the College of Medicine only on part-time basis.

(i) Candidates for admission to the degree of M.D. examination must have obtained the degree of Bachelor of Medicine and Bachelor of Surgery or Bachelor of Dental Surgery of any University recognized by the Nigerian University Commission and be eligible for full registration with the Medical and Dental Council of Nigeria.

(ii) In every case, to be eligible to register for Doctor of Medicine (MD), a candidate should have a minimum of three (3) years post medical/dental professional qualification (M.B.B.S/BDS/MBChB) experience which shall include at least one year of professional experience in the specialty area of the intended study.

(b) General Regulation A.2: Registration

(i) A candidate shall be admitted to one the Departments of the College of Medicine and be registered as a candidate of that Department.

(ii) When applying for registration for the degree, the candidate shall provide evidence in writing that he had the benefit or advice from a Senior University Teacher in Medicine/Dentistry of the University (a Senior Lecturer with a M.D./Ph.D. or a Reader/Full Professor) in the field covered by the subject of the proposed thesis. Such a teacher must be acceptable to the Postgraduate Committee of the College of Medicine and the Postgraduate School.
(b) **Doctor of Letter (D.Litt.), Doctor of Science (D.Sc.) and Doctor of Laws (L.L.D)**

(c) **Centre for Development Programme**

Tourism Development

(d) **Postgraduate Diploma**

Postgraduate Diploma Courses are available in the following Faculties and disciplines.

| (i) Arts | Theatre Arts |
| (iii) Clinical Sciences | Anaesthesia, Radiotherapy |
| (v) Institute of Education | Part-Time P.G.D.E. |
| (vi) Pharmacy | Postgraduate Diploma in Drug Analysis in the Department of Pharmaceutical Chemistry. |
| (vii) Faculty of Agriculture | Diploma in Agricultural Extension. |
(viii) Faculty of Renewable Natural Resources
Postgraduate Diploma in Biodiversity Management in the Wildlife and Ecotourism Management,

(ix) Veterinary Medicine
Veterinary Medicine;
Veterinary Radiology;
Veterinary Anaesthesiology; all these in the Department of Veterinary Surgery and Reproduction.

(x) Institute of Child Health
Professional PGD in Child Health

(x) Obstetrics & Gynaecology
Postgraduate Diploma in Population and Reproductive Health (PGD POP RH).

(xii) Centre for Sustainable Development
PGD in Indigenous knowledge and Development.

(xiii) Oral Dentistry
PGD in Forensic Odontology

7. **Areas of Specialization**

Information on areas of specialization in the various Degree programmes will be supplied along with application forms. Read this carefully since transfer of forms will not be entertained.

8. **Admission Requirements**

(a) The basic qualification for admission to all postgraduate Courses and Programmes is a first degree of the University of Ibadan or degree/Higher National Diploma of other recognized Institutions in the relevant discipline. Where qualifications are not strictly in the area of admission, remedial courses, which may lead to additional periods of studentship, may be prescribed.
In addition to individual Departmental requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five ‘O’ Level credit passes at ONE sitting or 6 ‘O’ level credits at TWO sittings including English Language and subject areas for ALL disciplines and Mathematics for ALL Science-based disciplines, Educational Management and Economics and at least a pass in Mathematics for other Social Science Courses OR Holder of NCE must have credit passes in WASC or credit or merit passes in TC II (obtained between 1967 and 1981) in English Language and four other relevant matriculation subjects.

(b) Candidates for the degree of M.Phil and Ph.D. are admitted in the first instance to the Degree of Master Programme. However, candidates who, in addition to a good first degree, and already holding acceptable postgraduate degrees, may be considered for direct admission to the M.Phil and Ph.D. Programmes.
AVAILABLE PROFESSIONAL DEGREE PROGRAMMES

A. FACULTY OF ARTS

1. MASTER OF COMMUNICATION ARTS (M.C.A.)

(Department of Communication and Language Arts)

(i) The Programme

This programme consists of courses, taught over three semesters, leading to the degree of Master of Communication Arts (M.C.A.) in the Department of Communication & Language Arts. The following areas of emphasis are offered.

(a) Basic Language Arts (Speech, Reading and Writing including Creative and Technical Writing);

(b) Mass Communication (Print and Broadcast Journalism, Advertising and Public Relations);

(c) Book Development and Publishing; and

(d) Applied Communication (Organisational, Business, Instructional and Development Communication).

(ii) Admission Requirements:

Candidates for admission to the programme should hold a minimum of a first degree in any discipline from a recognised University or possess acceptable professional qualifications such as HND or other approved equivalents. Candidates must have acquired a minimum of five years post-qualification working experience, including the National Service year where applicable.

Final selection will be based on written examination and oral interview of short-listed candidates. Candidates are therefore encouraged to provide their e-mail addresses and telephone numbers to facilitate invitation for the interview.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit
passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

2. MASTER OF PROFESSIONAL ETHICS (M.P.E)

(Department of Philosophy)

(i) **The Programme:**

The programme is mainly for decision-makers in various areas of life, for example, Politics, Government, Education, Business, Medicine, Nursing, the News Media and the Military and Para-military services. The duration of the course is a minimum of three semesters for full-time registration and a minimum of four semesters for part-time registration.

(ii) **Admission Requirements:**

Prospective students are expected to have an honours degree (minimum of third class) from a recognized University and at least one year work experience. HND holders with a minimum of a Lower Credit and at least two years’ work experience are also eligible for admission.

In addition, applicants must satisfy the O’ level, first-degree matriculation requirements of the University of Ibadan, that is, five O’ level credit passes at one sitting or six O’ level credit passes at two sittings, including English Language.
FACULTY OF SCIENCE

1. MASTER OF ENVIRONMENTAL CHEMISTRY AND POLLUTION CONTROL
   (M.E.C.P.C)

   (Department of Chemistry)

(i) Admission Requirements:

Candidates eligible for admission into the professional programme of Master of Environmental Chemistry and pollution control (M.E.C.P.C) shall be:

(a) Graduates of Chemistry, Industrial Chemistry or other chemical sciences e.g.

   Applied Chemistry, Biochemistry, Geology, Agronomy, e.t.c of the University of Ibadan or other Universities approved by the senate of the University of Ibadan. In addition, such candidates shall be expected to possess at least two years relevant post-graduation work experience in the public or private sectors.

(b) Holders of Higher National Diploma, (HND), or its equivalent in Chemistry, Industrial Chemistry or other Chemical Sciences (e.g. Applied Chemistry, Biochemistry, Geology e.t.c) from higher institutions recognized by the senate of the University of Ibadan. Applicants must have passed at a level not below an upper credit, or its equivalent.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

In addition, such candidates shall be expected to possess at least three years postgraduate working experience in the public or private sectors.
2. PROFESSIONAL MASTERS IN BUSINESS COMPUTING (M.B.C.)

(Department of Computer Science)

(i) Admission Requirements:

(a) Bachelor’s degree in Computer Science, Business, Economics, Engineering, Sciences, and Social Sciences with at least a Third Class (Honours) degree. Information Technology (IT) working experience will be an advantage.

OR

(b) Bachelor’s degree (Second Class Lower degree minimum) in any other discipline and two (2) years IT working experience.

OR

(c) HND in Computer Science, Business, Financial Studies and Engineering with at least an Upper Credit and two (2) years IT working experience or Lower Credit with at least five (5) years IT working experience.

NB: In addition to the above requirements, applicants must satisfy the O’level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

(ii) Duration

The Professional Masters in Business Computing (MBC) programme shall normally last for a minimum of three semesters and maximum of five semesters for full time study. Duration for part-time study will follow Postgraduate School guidelines.

4. PROFESSIONAL DEGREE OF MASTER OF SCIENCE (M.Sc.) IN METEOROLOGY

(Department of Physics)

(i) Admission Requirements:

Candidates for the M.Sc. (Met.) degree program must fulfill the requirements of the Postgraduate School of the University and as well as meet the requirement specified below:
A first degree in Physics or related discipline (Minimum Second Class Lower) from a recognized University. Postgraduate Diploma in Meteorology from the University of Ibadan or equivalent qualifications. In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

(ii) **Duration and Mode of Study:**

Candidates are expected to complete the M.Sc. programme in three (3) semesters full time or five (5) semesters part-time minimum.

5. PROFESSIONAL MASTER OF RADIATION PROTECTION (M.R.P.)

(Department of Physics)

(i) **Admission Requirements:**

Candidates for the M.R.P. degree program must fulfill the requirements of the Postgraduate School of the University of Ibadan and as well as meet the requirement specified below.

A first degree in Physical and Biological Sciences, Computer Science or Engineering from a recognized University. In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

(ii) **Duration and Mode of Study:**

Candidates are expected to complete the M.Sc. programme in three (3) semesters full time or five (5) semesters part-time minimum.

6. POSTGRADUATE DIPLOMA IN RADIATION PROTECTION (P.G.D.R.P.)

(Department of Physics)

(i) **Admission Requirements:**

Candidates for the PGD must fulfill the requirements of the Postgraduate School of the University of Ibadan and as well as meet the requirement specified below.
A first degree in Physical and Biological Sciences, Computer Science or Engineering from a recognized University or HND (Minimum Lower Credit) in Physics with Electronics and Engineering. In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

(ii) Duration and Mode of Study:

Candidates shall register full time. Minimum duration of the PGD programme is two (2) semesters.

7. PROFESSIONAL MASTERS DEGREE IN FORENSIC SCIENCE (MFS)

(Department of Archaeology & Anthropology)

Admissions requirement

The programme is open to candidates with a minimum of Third Class First Degree in relevant courses in Arts, Social Sciences, Law, Agricultural Sciences, Education, Medicine and sciences of the University of Ibadan or other Universities recognized by the Senate. Candidates with Higher National Diploma (Lower Credit) or equivalent may also apply. In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language and any other relevant Subjects.

Special consideration may be granted to candidates who have demonstrated track record of experience in the practice of Crime Investigation and Mass Disaster Management.

Duration

The duration of the course shall normally be 3 semesters for Full-Time studies or 5 semesters for Part-Time studies.

8. PROFESSIONAL MASTERS DEGREE IN FINANCIAL MATHEMATICS (MFM)

(Department of Mathematics)

The Programme
The programme is open to all interested and qualified applicants with sufficient mathematical background.

**Admission Requirements:**

Admission to Professional Master in Financial Mathematics is open to:

a. Graduates of this University and other approved Universities and higher institutions recognized by the Senate of the University of Ibadan, with a minimum of 3rd Class honors degree in Mathematics, Sciences, Engineering and Social Sciences. It is however required that non-Mathematics graduates must pass a minimum of four (4) courses in Mathematical Sciences. Such courses are Elementary Differential Equations, Elementary Algebra, Calculus, Elementary Statistics, Computer Programming, Mathematical Analysis, Operations Research and Numerical Analysis during their undergraduate programme.

b. Holders of H.N.D. with a minimum of Lower Credit in the above specified disciplines shall be considered. They are however required to have passed a minimum of four courses in the Mathematical Sciences at both OND/HND levels.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

**PROFESSIONAL POSTGRADUATE DIPLOMA (PGD) APPLIED AND ENVIRONMENTAL ZOOLOGY**

(Department of Zoology)

The programme will provide opportunities for biosciences graduates who do not have the requirement to proceed to a Masters (M.Sc.) academic programme.

It is designed for capacity development/ building towards skilled manpower need for Nigeria.

Graduates from the programme will be employable in the public and private sectors, including zoos, museums, hospitals, research institutions, fish farms, oil companies, education and allied institutions and they will also be empowered for self-employment.
ENTRY REQUIREMENTS, DURATION AND REGISTRATION

Admission to the programmes is open to graduates with a minimum of 3rd Class of any Universities recognized by the Senate of University of Ibadan, who has been admitted to the Bachelor of Science/Education Degree in Zoology/Biology/Environmental Biology or related disciplines namely, Biochemistry, Animal Physiology, Fisheries and Aquaculture, Wildlife and Ecotourism, and Animal Science. Candidates who obtain HND (minimum of lower credit) in relevant disciplines may also be considered. Qualified candidates will be examined before admission.

Candidates admitted to the programme shall be required to register for a minimum of 24 units and maximum of 36 units. This includes courses like Bioentrepreneurship, Forensic Biology, Environmental Waste Management, Fish and Hatchery Management, Epidemiology and Control of Parasitic Diseases, Integrated Pest Management, Animal Biotechnology, Applied Toxicology, Methods in Parasite Detection and Zoo and Museum Keeping.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.
FACULTY OF ENVIRONMENTAL DESIGN AND MANAGEMENT

1. MASTER OF URBAN AND REGIONAL PLANNING (M.U.R.P.)

(Department of Urban & Regional Planning)

(i) The Programme:

This is a two-year full-time programme, leading to the degree of Master of Urban and Regional Planning (M.U.R.P). It consists of courses, seminars, laboratory and studio demonstrations, individual projects and a three-month period of internship. (The programme is recognised by the Nigerian Institute of Town Planners).

(ii) Admission Requirements:

Admission to the programme is open to candidates holding recognised full Professional Diploma, with a minimum of credit level pass in Town Planning and related disciplines. In addition, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR TC II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

2. M.Sc. DEGREE PROGRAMME IN HOUSING

(i) The Programme:

The M.Sc. in Housing programme offered by the Department of Urban and Regional Planning provides an avenue to develop a crop of practitioners/professionals who are theoretically and practically competent to rise to the challenges which housing issues present. This is achieved through lectures, seminars, fieldwork, laboratory/studio demonstrations and case studies.

(ii) Admission Requirements:

Housing Programme is competitive and open to graduates of the University of Ibadan or other Universities recognized by the Senate, in the Social Sciences, Administration, Environmental Design and Management, Technology, Law, Sciences and Environmental Health. Limited number of candidates with long-standing experience in housing oriented establishments, but with recognized equivalent professional membership may be considered for admission. HND graduates with minimum of 5 years post-qualification experience may also be considered for admission.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’
level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

(iii) **Duration**

The programme can be run full-time or part-time and will extend over a minimum of three (3) Semesters for full-time studies and minimum of five (5) semesters for part-time studies.

---

**FACULTY OF THE SOCIAL SCIENCES**

1. **MASTER OF INDUSTRIAL AND PERSONNEL RELATIONS (M.I.P.R)**

(Formerly known as Master of Industrial and Labour Relations) (MILR). The revised programme now enriched with personnel courses enables students to specialize in any of the following areas of their choice: Industrial relations, human resource management and labour market.

(ii) **Admission Requirements:**

Applicants for admission to the Master of Industrial and Personnel Relations (M.I.P.R.) Programme must hold good honours Bachelor’s degree of the University of Ibadan or other recognized universities. Applicants with **Higher National Diploma (at least upper credit) with three years work experience** may apply. **Higher National Diploma with Lower Credit and Five years of Experience** are eligible to apply. Candidate with **Third class with Professional qualification like CIPM, NIM** are also eligible to apply. Selection is based on evidence that the applicant will be able to pursue creditably a programme leading to the postgraduate degree of Master of Industrial and Personnel Relations. In addition, the applicant must have work experience of at least three years. Qualified candidates with written evidence of sponsorship shall be given preference.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II
obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

2. MASTER OF PROJECT DEVELOPMENT AND IMPLEMENTATION (M.P.D.I.)

(Department of Sociology)

(i) Objectives

The course aims to provide students with analytical capacities, knowledge and skills necessary to propose, plan, implement, monitor and evaluate development projects. It seeks to enhance skills and knowledge in specialist functional areas such as social, economic and infrastructural development. It focuses attention on the characteristics of projects specific to developing countries and their links to the use of appropriate technology and sustainable processes. It also aims to develop an appreciation of the role of research in proposing, managing and evaluating projects.

(ii) Admission Requirements:

a. Candidates for admission shall be holders of a Bachelor's Degree, with a minimum of Second Class Lower Division, or the Higher National Diploma (Upper Credit), (2) Higher National Diploma Lower Credit With Five Years Work Experience and Third Class Degree with Five years work Experience from any Institution recognized by the Senate of the University of Ibadan.

b. Candidate must have requirement of years of post-qualification work experience.

c. Candidates must have a demonstrated track record of experience in infrastructural or human development project activities, or involvement in policy design relating to development projects.

d. In addition, candidates must provide evidence of sponsorship or availability of support for the program.

e. Candidates must satisfy the matriculation requirements of the University of Ibadan, including a Credit grade in English Language and a Pass in Mathematics at the O level examination or its equivalent.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.
(iii) Course Duration

The course duration is for a minimum of three semesters and a maximum of five semesters for full-time students. Part time students are expected to spend a minimum of five semesters and a maximum of seven semesters.

3. ACADEMIC MASTER DEGREE IN RESEARCH AND PUBLIC POLICY (M.R.P.P.)

(Department of Sociology)

(i) Objectives

The goal of the programme is to produce high quality graduates equipped to pursue scholarly research that is policy relevant and/or contribute to evidence-informed policy practice.

The vision underpinning the MRPP is the value of strengthening the production of social science researchers so that they may contribute to public policy development in Sub-Saharan Africa. It was felt that a programme that provides for the development of competencies in research and public policy would generate a cadre of professionals able to work in a wide variety of settings including but not limited to government bodies, think tanks, civil society organisations, regional and international organisations, media and universities.

MRPP graduates should be able to produce social science research that can contribute to public policy and good governance, and also able to utilize research evidence in public policy development.

(i) Admission Requirements

The MRPP aims to attract a rich diversity of qualified applicants from among graduates as well as early and mid-level professionals seeking to build on their expertise. Uniform minimum eligibility criteria and a rigorous selection process will ensure that the students admitted into the programme are motivated, capable of coping with the demands of the programme and developing the required competencies.

Through the process illustrated above, universities will identify, through tests and interviews, students with a range of desirable characteristics (e.g. good analytical skills; creative; resourceful; hard working; population (gender, ethnic, religious, region, disciplinary background, previous work experience etc.) will enrich opportunities for students to learn from each other through sharing knowledge and experiences.

PASGR is developing a web-based portal that can be used for communication within and across all MRPP universities. The portal can also be used by each university for on-line applications, which will help track student profiles and identify trends in
admissions over time. Students will also be expected to register on the University of Ibadan website simultaneously.

To be considered for admission into the MRPP programme, all applicants must meet the following minimum eligibility criteria:

- An upper Second class Bachelor’s degree (or its equivalent CGPA), or
- A Bachelor’s degree of a lower second class, and at least 2 years of work experience in a research or policy field. Eligibility candidates will subsequently be considered using a common two-stage selection process determined by each university. The selection process should include:

  - Applications with:
    1) personal details;
    2) academic record to date;
    3) academic and/or professional references; and
    4) a letter of motivation.
  - Followed by one or more of the following:
    1) personal interview;
    2) written or oral examination, assignment, or task; and/or.
    3) assessed group exercise.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

4. PROFESSIONAL M.Sc. IN GEOGRAPHICAL INFORMATION SYSTEMS (G.I.S.)

(Department of Geography)

(i) The Programme:

This programme consists of courses taught for three semesters leading to the degree of Master of Science in Geographical Information Systems in the Department of Geography.

The aim of the Professional M.Sc. in Geographical Information Systems (GIS) is to produce well-trained professional in GIS concepts and technology with capabilities in various applications in the areas of natural resources and environmental management; rural, urban and regional planning, cartography,

Eligibility to Proceed to M.Phil and Ph.D

1. Admission is normally open to candidates with MSM, MLIS, M.Inf. Sc.

2. Candidates must have a CGPA of:
   a. 3.0 – 3.9 for M.Phil
   b. 4.0 – 4.9 for M.Phil/Ph.D
   c. 5.0 above for Ph.D

Candidate on M.Phil/Ph.D programme can convert to Ph.D through a conversion examination except he/she is on a terminal M.Phil programme.

The degree of Master of Philosophy (M.Phil.) and the degree of Doctor of Philosophy (Ph.D) in School Media will produce high-level personnel to research into school media and teach school media courses at the University and other tertiary institutions. The products of the programme can also work as librarians in libraries and information centres.

In addition to the above requirements, applicants must have five ‘O’ level credit passes at one sitting or six ‘O’ level credit passes at two sittings including English Language.
AFRICA REGIONAL CENTRE FOR INFORMATION SCIENCE (ARCIS)

1. MASTER OF INFORMATION SCIENCE (M.Inf.Sc.) (Academic)

(i) Background

The Africa Regional Centre for Information Science (ARCIS) undertakes research, trains high-level human resources through formal degree programmes, and provides consultancy services in information science and technologies, development and management of information systems, and development of information products, services and policies.

(ii) Objectives

This is an academic programme that aims to:

(i) Develop students’ knowledge and skills in conducting high-level research in information science and systems.

(ii) Equip students with the skills for training and developing human resources in information science and systems for academia and industry;

(iii) Produce graduates with the versatility and innovativeness to assume leadership positions in research and training environments in the information industry.

Target Group

University graduates who are interested in pursuing academic and research careers in information science and systems.

(iii) Admission Requirements:

Applicants to the programme must possess any of the following minimum qualifications:

(a) Second Class (Upper or Lower) degree in any discipline; or

(b) In addition to the requirement in (a) above, possession of a Master’s degree in any discipline will be an added advantage.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’
level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

(iv) **Duration and mode of study**

The programme will normally last for a minimum of three and a maximum of six semesters of full-time study, no part-time registration shall be allowed.

2. **MASTER OF INFORMATION RESOURCES MANAGEMENT (MIRM) (PROFESSIONAL)**

(i) **Objectives:**

This is a professional programme that aims to:

a) Develop the students’ knowledge and skills for professional careers in information technology and systems and management positions in the information industry.

b) Produce graduates with generic data, information, knowledge and information technology management skills, along with specialized knowledge and skills in specified areas in the information industry.

c) Produce graduates with adequate versatility, innovativeness and confidence to assume leadership positions at middle to top managerial position in the information industry.

**Target Group**

University graduates or higher national diplomats, or equivalents who are interested in pursuing professional and managerial careers in the information sciences, technology and systems.

(ii) **Admission Requirements:**

Applicants to the programme must possess any of the following minimum qualifications, or equivalents, obtained from institutions approved by Senate:

a) Second Class honours degree in any discipline;
b) Third Class in any discipline, plus an academic or professional master’s degree in any discipline.

c) Higher National Diploma (HND) at Upper Credit classification.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

(iii) Duration and Mode of Study

The programme will normally last for a minimum of five and a maximum of eight semesters of part-time study.

Please note that the part-time does not mean a weekend only programme but lesser workload per semester than the full-time

(iv) Areas of Specialisation in the Programme

(1) Corporate Knowledge Management

(2) Database Design and Administration

(3) Web Application Development

(4) Information Management Practice
FACULTY OF AGRICULTURE

1. PROFESSIONAL DEGREE MASTER OF AGRICULTURAL POLICY AND ADMINISTRATION (M.A.P.A.)

(Department of Agricultural Economics)

(i) Programme

The M.A.P.A. is designed to assist candidates in gaining managerial and administrative skills and competence for careers in Agriculture and Rural Development in government, agribusiness, industry, banks/financial institutions and international organizations.

(a) B.Sc. degree with at least two years work experience with relevant organizations.

(b) H.N.D. in Agriculture, Animal Health and Production with five years work experience in relevant organizations.

(c) D.V.M. or equivalent qualifications with similar experience as above.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

(iii) Duration

Full-Time - Three semesters

Part-Time - Four semesters

Part-Time courses will be taught on Fridays and Saturdays. One semester is for industrial attachment in each category.
2. PROFESSIONAL MASTER DEGREE OF AGROFORESTRY (M.A.F.)

(Department of Forest Production and Products)

(i) Programme:

This is a two-year Master’s degree programme. It combines both course work and project research. Candidates will be required to undertake field research lasting between 3 and 9 months at the end of which a dissertation will be written and submitted for assessment. The Professional Master of Agroforestry is a terminal Degree.

(ii) Admission Requirements:

The Professional Master of Agroforestry is open to candidates with Second Class (Lower Division). Third Class or Pass Degree or Higher National Diploma Degree in the relevant subject area.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

3. POSTGRADUATE DIPLOMA IN AGRICULTURAL EXTENSION

(Department of Agricultural Extension & Rural Development)

(i). The Programme:

This programme is designed for mid-career extension practitioners to assist in gaining skills and competencies required for career in Agricultural Extension and Rural Development in Public and Private Organizations.

(ii) Eligibility:

(a) Graduate of Agriculture, Social Sciences, The Sciences, Education and Humanities involved in extension work.

(b) HND in Agriculture and other related disciplines with one year experience in relevant organizations

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five
O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.

- **Duration:**
  Three semesters. This includes three months for industrial attachment.

4. POSTGRADUATE DIPLOMA IN BIODIVERSITY MANAGEMENT PROGRAMME

(Department of Wildlife & Ecotourism Management)

(i) **Admission Requirement:**

- Applicants will be required to have either a minimum of first degree in Agriculture, the Sciences, Forestry, Wildlife Management, Fisheries Management and Conservation and Tourism Management of the University of Ibadan or any other recognized Universities.

- Or an HND (with O’ level Credit Pass in English and Mathematics) in Tourism, Agriculture, Sciences, Forestry Wildlife Management, Fisheries Management and three years relevant experience.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language, Mathematics, Chemistry and Biology and any other two Science subjects.
FACULTY OF TECHNOLOGY

1. PROFESSIONAL DEGREE MASTER OF SCIENCE (M.Sc.) DEGREE IN MICROPROCESSOR & CONTROL ENGINEERING.

(Department of Electrical & Electronics Engineering)

(i) The Programme:

The Professional Master’s degree (M.Sc.) in Microprocessor and Control Engineering is aimed at providing suitably qualified candidates with a deeper understanding and a longer practice in the fields of Microprocessor and Control Engineering.

The programme will also be useful in updating the knowledge of professional Engineers in the fields of Electronics & Control Engineering.

(ii) Admission Requirements:

(a) Admission to the programme shall be open to the graduates of the University of Ibadan or other Universities recognised by the Senate who possess a good honours degree in Electrical/Electronics Engineering or other related disciplines such as Physics, Mathematics and other Engineering courses. Candidates with HND upper credit and above/equivalent qualifications in Electrical/Electronic Engineering with industrial experience of not less than ten (10) years may be considered for admission.

(iii) Duration

The professional M.Sc. programme shall last a minimum of three semesters.

2. PROFESSIONAL DEGREE MASTER OF SCIENCE (M.Sc.) IN ENERGY TECHNOLOGY AND MANAGEMENT

(Department of Mechanical Engineering)

(i) Admission Requirements:
Candidates for admission into the programme shall be first degree holders in engineering of the University of Ibadan or other Universities recognized by the Senate of the University of Ibadan.

Candidates with the Postgraduate or equivalent professional qualification in engineering or related disciplines and who have had at least two years of relevant industrial experience shall also be considered for admission. Candidates must fulfill all admission requirements for matriculation into the University of Ibadan.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(ii) **Duration of the Programme**

The duration of the programme shall be a minimum of three and a maximum of five semesters for the full time students while part-time students will normally be expected to spend a minimum of five and a maximum of seven semesters.

3. **PROFESSIONAL DEGREE MASTER OF BIOMEDICAL ENGINEERING**

(Department of Mechanical Engineering)

**Admission Requirements**

- Candidates for admission into the Academic Master's Degree programme shall be first degree holders (minimum of Second Class Lower) in Engineering, Sciences, Veterinary Medicine, Medicine, Dentistry and Clinical Sciences of the University of Ibadan or of other Universities recognised by Senate of the University of Ibadan. Those to be admitted for the Professional Master's Degree Programme should have a minimum of HND Lower Credit. Holders of Higher National Diploma may also apply for Postgraduate Certificate or Postgraduate Diploma programme. Candidates must fulfil all admission requirements for matriculation into the University of Ibadan.

- Admission to the programme shall normally be at the beginning of each academic session. All registration formalities shall normally be done at the beginning of the first semester as required by the University for Postgraduate training.

**Programme Duration**
The duration of the programmes shall be as follows:

(i) **Postgraduate Certificate**- a minimum of one semester and a maximum of four semesters for the full time students while part time students will normally be expected to spend a minimum of two semesters and a maximum of four semesters.

(ii) **Postgraduate Diploma**- a minimum of two semesters and a maximum of four semesters for the full time students while part time students will normally be expected to spend a minimum four semesters and a maximum of six semesters.

(iii) **Master's**- a minimum of four semesters and a maximum of six semesters for the full time students while part time students will normally be expected to spend a minimum of six semesters and a maximum of eight semesters.

3. **PROFESSIONAL DEGREE MASTER IN MECHANIZATION AND POST HARVEST TECHNOLOGY (M.Sc in MPT)**

   *(Department of Agricultural and Environmental Engineering)*

   (i) **Duration of the Programme:**

   The minimum period study is three (3) semesters for full-time and five (5) semesters for part-time. The maximum time required for graduation is five (5) semesters and seven (7) semesters for full-time and part-time respectively.

   (ii) **Admission Requirements**

   Graduates holding at least a first degree in Engineering, Science, Agricultural and food related disciplines. Candidates with a good honors degree in less relevant subjects but with relevant working experiences may be considered. In all circumstances, evidence of relevant in-service training will be an advantage. HND holders with Postgraduate Diploma in relevant disciplines and minimum of three (3) years post-qualification experience will also be considered.

   In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.
4. PROFESSIONAL DEGREE MASTER OF SCIENCE IN WOOD TECHNOLOGY (M.Sc WOOD TECHNOLOGY)

(Department of Agricultural and Environmental Engineering)

(i) **The programme**

The minimum of study is three (3) semesters for full-time and five (5) semesters for part-time. The maximum time require for graduation is five (5) semesters and seven (7) semesters for full-time and part-time respectively.

(ii) **Admissions Requirements**

Graduates holding a honours degree in Wood Products Engineering, Physics, Chemistry, Mathematics, Forestry, Agriculture and relevant fields of Engineering other than Wood Products Engineering. HND holders with Postgraduate Diploma in relevant disciplines and minimum of 3 years post-qualification experience will also be considered.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

---

5. PROFESSIONAL DEGREE MASTER OF ENGINEERING MANAGEMENT (M.E.M)

(Department of Industrial and Production Engineering)

(i) **The programme**

The professional Master of Engineering Management (M.E.M) Programme provides a blend of advanced engineering and business education aimed at preparing Engineers for effective participation in the management of engineering and technology-based organization as well as management of technological change. The programme is structured such that candidates can specialize in any of the following options: *Ergonomics and Safety Management, Logistics and Supply Chain Management, Project Management, or Maintenance Management.*

(ii) **Admission Requirements**
Applicants should normally possess an engineering honours degree from a recognized University with a minimum of two (2) years post graduation work experience.

HND graduates with a minimum of 5 years work experience may be considered.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(iii) Duration of study

**Full Time:** The duration of the programme shall be a minimum of three semesters for the full-time students

**Part Time:** The duration of the programme shall be a minimum of five semesters for the part-time students.

6. PROFESSIONAL DEGREE OF MASTER OF SCIENCE IN CONSTRUCTION PROJECT MANAGEMENT (M.Sc. CPM)

(Department of Civil Engineering)

(i) The Programme

The programme aims to enhance candidates’ understanding of managing projects for construction professionals in practice and client organisations, helping to support them in their professional capacity to contribute to the successful and timely delivery of construction projects. Candidates shall be motivated and equipped to play leading roles in construction projects management, engage effectively in improving the process through which companies, practices and projects are managed, and which in turn, manage the creation of the built environment.

(ii) Admission Requirement

A minimum of Second Class Degree (Lower Division) from a recognised University, in relevant subject areas and at least two years cognate work experience. Applications may be considered from candidates who have Higher National Diploma with a minimum of Lower Credit and at least four year’s experience in the Construction Industry at the Management level.
In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(iii) **Duration of Course**

The duration of the programme shall be a minimum of three semesters of full-time study or five semesters of part-time academic work.

(iv) **Collaboration**

The University of Ibadan has separate collaborative agreements with the University of West of England (UWE) and University of Wolverhampton (UoW), both in the UK based on Credit Recognition regarding the programme. Course credits may be transferred from the award of the degree of the respective universities. Successful candidates are to spend at least one Semester in UWE or UoW. However, candidates must satisfy the requirements governing the award of degrees in the particular institution selected. Candidates interested in undergoing the programme fully in the University of Ibadan may also apply. Those who intend to obtain either the Postgraduate Certificate (PGC) or/and Postgraduate Diploma (PGD) should apply for only the UoW programme. Such candidates for PGC and PGD need not have post-graduation experience. The PGD obtained from UoW can be used for admission into the M.Sc. CPM of UoW.

**FACULTY OF PHARMACY**

1. **MASTER DEGREE IN CLINICAL PHARMACY - M.Sc (Clinical Pharmacy)**

   (Department of Clinical Pharmacy)

   (i) **Programme:**

   The main purpose of the Academic Master of Pharmacy (M.Sc) degree in the Faculty of Pharmacy, is to offer intensive training to graduate pharmacists with B. Pharm Degree to acquire expertise in the dynamic concepts of pharmacy with special reference to Clinical Pharmacy.

   (ii) **Admission Requirements:**

   (a) Admission to M.Sc degree in Clinical Pharmacy is open to
candidates with a degree in Pharmacy of the University of Ibadan and any other University recognized by the Senate of the University of Ibadan.

(b) Such candidates must be registered Pharmacists by the Pharmacist Council of Nigeria.

In addition to the above requirements, applicants must satisfy the ‘O’ level first degree matriculation requirements of the University of Ibadan, i.e. five O’level credit passes at one sitting or six O’level credit passes at two sittings including English Language, Mathematics, Physics, Chemistry and any other Science subject.

(iii) **Duration:** -

The minimum periods of study will be 3 semesters full-time.

2. **POSTGRADUATE DIPLOMA IN HERBAL MEDICINE (PGDHM)**

(Department of Pharmacognosy)

(i) **The Programme**

The philosophy of the programme is to produce healthcare professionals who will provide health care using locally available resources. The programme will bring to bear the knowledge of Science and Technology for sustainable development of herbal medicine in Nigeria and in the West African sub-region. The programme will focus heavily on standardization of herbal products, introduction of good manufacturing and formulation practices and also bring to the knowledge of practitioners the wealth of standardized, safe and efficacious phytomedicines already in clinical practice within and outside the country.

(ii) **Objectives**

(i) To train the students in the art of modern medicine practice by bringing Science and Technology to bear on the practice in Nigeria.

(ii) To motivate the students towards herbal drug production as trained herbal producers thereby increasing the inventory of available drug products in the country and gradually creating a credible Nigeria herbal drug industry.

(iii) To offer training in good manufacturing practices and standardization in order to enhance safety, potency and quality of herbal products.
To introduce graduates and qualified practitioners of Herbal medicine to scientific techniques of medicinal plant quality assurance.

(iii) Admission Requirements:
Candidates for the Postgraduate Diploma in Herbal Medicine must fulfill the requirements of the Postgraduate School of the University of Ibadan as well as meet one of the requirements (a or b) specified below and any other conditions that may be required by the University of Ibadan Postgraduate School from time to time.

A first degree in Pharmacy, Medicine, Nursing, Botany, Chemistry, Biochemistry, Microbiology, Agriculture/Forestry, Zoology and other acceptable science related disciplines of the University of Ibadan or any other recognized University.

Higher National Diploma (HND) at least Lower Credit in acceptable science – based courses.

3. MASTERS OF DRUG DEVELOPMENT AND REGULATORY PHARMACY (MDDRP) (Part-Time)
(Centre For Drug Discovery, Development and Production)

(i) The Programme
The aim of this programme is to provide professionals working within the pharmaceutical industry, government, academia, and relevant professions with core knowledge of the scientific, regulatory, clinical, ethical, and social issues relevant to the discovery, development, production, evaluation, registration, and promotion of medicines. The Programme also aims at building capacity to enhance local manufacturing and availability of prequalified facilities for drug manufacturing under internationally acceptable regulatory guidelines. The social goal of the programme is to improve the quality of health care by developing and promoting skills that hasten the development and supply of new therapeutic agents, and to assist in optimising the use of existing medicines and devices in order to maximise their benefits and minimize risks.

(ii) Admission Requirements
Candidates for admission for the Masters’ degree in Drug Development and Regulatory Pharmacy (MDDRP) must fulfill the requirements of the Postgraduate School of the University of Ibadan as well as meet the requirements specified below and any other conditions that may be required by the University of Ibadan Postgraduate School from time to time.
A first degree (minimum of second class lower) in Pharmacy, Medicine, Veterinary Medicine, Nursing, Botany, Chemistry, Biochemistry, Microbiology, Biology, Physiology, Anatomy, Agriculture/Forestry, Agric. Engineering, Mechanical Engineering, Chemical Engineering, Petroleum Engineering, Food Technology, Zoology and other acceptable science related disciplines of the University of Ibadan or other recognised universities are eligible to apply. Work experience in pharmaceutical industry or medicine regulatory agency is an added advantage. Candidates must also satisfy the O’ level requirements for their respective degree programmes in accordance with University of Ibadan regulations; that is five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language and any other science subjects.

4. POSTGRADUATE DIPLOMA IN DRUG DEVELOPMENT

(Centre For Drug Discovery, Development and Production)

(i) The Programme

The aim of this programme is to provide professionals working within the pharmaceutical industry, government, academia, and relevant professions with core knowledge of the scientific, regulatory, clinical, ethical, and social issues relevant to the discovery, development, production, evaluation, registration, and promotion of medicines. The Programme also aims in building capacity to enhance local manufacturing and availability of prequalified facilities for drug manufacturing under internationally acceptable regulatory guidelines. The social goal of the programme is to improve on the quality of health care by developing and promoting skills that hasten the development and supply of new therapeutic agents, and to assist in optimizing the use of existing medicines and devices in order to maximise their benefits and minimise risks.

(ii) Admission Requirements

Candidates for admission for the Postgraduate Diploma in Drug Development (PDDD) must fulfill the requirements of the Postgraduate School of the University of Ibadan as well as meet the requirements specified below and any other conditions that may be required by the University of Ibadan Postgraduate School from time to time.

a) A first degree (minimum of a third class) in Pharmacy, Medicine, Veterinary Medicine, Nursing, Botany, Chemistry, Biochemistry, Microbiology, Biology, Physiology, Anatomy, Agriculture/Forestry, Agric. Engineering, Mechanical Engineering, Chemical Engineering, Petroleum Engineering,
Food Technology, Zoology and other acceptable science related disciplines of
the University of Ibadan or other recognised university.

b) Higher National Diploma (HND) (at least Lower Credit) in acceptable
science-based subjects.

c) Candidates must also satisfy the O’ level requirements for their respective
degree and diploma programmes in accordance with University of Ibadan
regulations; that is: five O’ level credit passes at one sitting for candidates
coming with courses available in University of Ibadan, College of Medicine
and Pharmacy (under-graduates), or six O’ level credit passes at two sittings
including English Language and any other science subjects for others.

5. POSTGRADUATE DIPLOMA IN DRUG ANALYSIS
(Department of Pharmaceutical Chemistry)

The programme shall be designated Postgraduate Diploma in Drug Analysis
(PDDA).

Objectives

➢ To provide practicing analytical scientists with the opportunity to enhance
their capability and leverage in the performance of their professional duties.

➢ To satisfy the consumer needs of the Nigerian Pharmaceutical Industry as the
programme aims at producing on a regular basis the requisite manpower at
this specialist level that can serve the needs of the Pharmaceutical Industry.

➢ To enhance their pre-qualification profile for recognition as analysts by
regulatory bodies.
1. PROFESSIONAL DEGREE MASTER OF PUBLIC HEALTH (M.P.H.) IN ENVIRONMENTAL HEALTH

(Department of Environmental Health Sciences)

Environmental health is a multidisciplinary subject and cuts across all sections and all levels of society. There is a growing public awareness on the need for environmental pollution control and protection of populations from the impact of environmental hazards. Environmental problems are hitherto being tackled by specialist groups belonging to a variety of disciplines in isolation. There is the need to train professionals at an advanced level using a multidisciplinary approach. The programme is thus intended to train people with various backgrounds in science, engineering and social sciences to tackle the most commonly occurring environmental problems with a view to safeguarding the health of communities.

(i) Aims and Objectives:

To prepare at Master’s degree level public health practitioners with specialisation in Environmental Health to undertake:

(a) Administration, policy formulation, planning, direction and evaluation of environmental health activities, particularly in Ministries of Health, Environment, Works and Housing, Education, Manufacturing Industries, and others dealing with Environment.

(b) Teaching of environmental health in Universities, Institutions, Schools of Health, Technology, other Schools and in communities.

(c) Challenging tasks in Local Governments, industries and organisations to alleviate the environmental problems.

(d) Research to improve the quality of environment and to prevent diseases in communities and work places.
(e) Liaison with health-related agencies concerned with environmental problems and to introduce environmental health education.

(ii) **Admission Requirement:**

(a) Candidates for admission to the degree shall normally be graduates of this University or any other Institution recognised by the Senate of the University of Ibadan.

(b) A Bachelors degree in the Sciences viz Chemistry, Microbiology, Botany, Geology;  Applied Sciences viz Geography, Biochemistry, Physiology, Pharmacy, Pharmacology; Medicine/Medical Sciences; and Technology particularly Civil and Chemical Engineering(with at least a 2nd class). Other related disciplines may be considered depending on the level of competition and availability of space.

(c) Experience in health, education, social welfare or other appropriate Ministry, Agency or Institution may be an added advantage.

(d) Applicants with additional postgraduate experience shall have added Advantage.

(iii) **Duration:**

The M.P.H degree course lasts two academic sessions, and it is equivalent in status to M.Phil degree.

**PROFESSIONAL MASTER’S IN SAFETY, HEALTH AND ENVIRONMENT (MSHE). (Department of Environmental Health Sciences).**

The Professional Master’s in Safety, Health and Environment is designed mainly/principally to produce Safety Practitioners who will be able to identify, assess and solve safety, health and environmental problems which arise in the workplace through the principles of good management practices. It is geared towards providing higher capacity skilled manpower, trained
specifically for promoting health and preventing illness through applying scientific skills for better management of environmental hazards.

The long-term objectives of the programme are to:

1. produce graduates with requisite skills to identify hazards in the workplace.

2. train graduates on design strategies for preventing and controlling hazards in the workplace so as to minimise injuries and associated health effects.

3. equip graduates with modern techniques of industrial hygiene and good manufacturing practices (GMP).

4. turn out graduates with relevant skills in risk communication and management.

5. produce high level manpower with sound knowledge and capacity to handle environmental audit in the workplace.

Target Groups

The Professional Master’s in Safety, Health and Environment, is intended to attract students from all over Africa and beyond. The target groups are industry workers who are in the Health, Safety and Environment (HSE) Departments as well as those in related Departments. Other categories of persons targeted for the course include Managers of HSE firms and other environmental agencies that require higher degree for career advancement.

Duration

The course shall be run as a full-time Professional Masters programme. The duration for the completion of the course shall be three semesters.

Admission Requirements

Applicants for the programme must satisfy the matriculation requirements of the University of Ibadan for their cognate disciplines.

Other requirements:
a. Candidates for admission shall be holders of first degree from the University of Ibadan or other Universities approved by the Senate of the University in the Sciences, Social Sciences and Engineering. Candidates with Higher National Diploma (Upper Credit) in relevant fields shall be considered for Admission. Possession of Postgraduate Diploma in relevant fields shall be an added advantage.

d) Candidates eligible for admission should be currently employees of industries and other related agencies and organisations. Independent candidates must have cognate post-graduation experience of minimum of three years. In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (undergraduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.

2. PROFESSIONAL DEGREE MASTER OF PUBLIC HEALTH (M.P.H) IN FIELD EPIDEMIOLOGY

(Department of Epidemiology and Medical Statistics)

Admission Requirements

The course is open to medical graduates of recognised Universities. Graduates of the applied medical sciences with a minimum of Second Class Upper Degree qualifications will also be considered for the course. Such candidates with other qualifications must have demonstrable track record of experience in the practice of Public Health and Epidemiology. All candidates will be invited for an admission interview. Prospective candidates must have obtained a NYSC certificate or an exemption and must provide evidence of sponsorship or availability of support for the course. However, graduate of Anatomy, Physiology, Biochemistry, Zoology and Botany will not be considered for admission and therefore need not apply.

(ii) Work experience:
The candidate must have served in health, education, or social welfare agency/ministry for a minimum period of two years continuously after having received his or her basic degree.

3. PROFESSIONAL DEGREE MASTER OF PUBLIC HEALTH (M.P.H) IN FIELD EPIDEMIOLOGY PRACTICE

This programme fashioned after the Epidemiology Intelligence Service has the broad goal to foster professional development of practicing epidemiologists at national, state, and local government departments of health. The programme is organized in collaboration between the University of Ibadan; United States Centre for Disease Control and Prevention and Federal Ministry of Health. Other collaborators are the Ministry of Agriculture and Natural Resources and other international agencies. The programme has three tracks which are: MPH medical Epidemiology (MPHMEP), MPH Laboratory Epidemiology (MPHLEP), MPH Veterinary Epidemiology (MPHVEP).

General Admission Requirements for all track in field epidemiology practice:
- Must be currently employed by a Federal, State, or Local Government Department, agency or parastatal.
- Must show evidence of release to pursue the programme.
- Must have been confirmed or working for at least 2 years current employment.
- Must have at least a credit in English at O’levels.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.

- MPH Medical Epidemiology (MPHMEP)

This kart is open to medical graduates of recognised Universities.

Specific Requirements: for each track.
(ii) **MPH Laboratory Epidemiology (MPHLEP):**

This tract is open for graduates of the medical and laboratory sciences who has obtained a minimum of second class honours from a University recognized by the Senate of the University of Ibadan. Candidates must possess the professional registration of the Institute of Medical Laboratory Sciences of Nigeria.

(iii) **MPH Veterinary Epidemiology (MPHVEP)**

This track is open for graduates of Veterinary Medicine from a recognised University.

4. **PROFESSIONAL MASTERS DEGREE OF PUBLIC HEALTH (M.P.H) IN MEDICAL DEMOGRAPHY**

The programme offer broad training in the principles, theories and method of Demography with particular applications to reproductive health, population change in relation to health and socio-economic development.

(ii) **Admission Requirements:**

The course is open to graduates with MBBS or its equivalent and graduates of Mathematics, Statistics and Social Sciences such as Demography, Geography, Sociology and Actuarial Science of the University of Ibadan or any other University recognised by the Senate of the University of Ibadan.

Graduates of Mathematics, Social Sciences and Sciences should have a minimum of a second-class lower division qualifies to be considered for the course. However, candidates must have demonstrable track record of experience in practice of Public Health, Statistics, Population and Reproductive Health.

5 **PROFESSIONAL MASTER DEGREE OF PUBLIC HEALTH (M.P.H) IN MONITORING & EVALUATION**

**Requirements for Master of Public Health (MPH) in Monitoring and Evaluation**

The course is open to all graduates in the Statistics, Mathematics, Computer Science, Health and Social Sciences of the University of Ibadan or any other recognized university with a minimum
of 2nd class honours lower division. Candidates with a third (3rd) class or Higher National Diploma (HND) in any of the stated disciplines listed above may also be considered. Prospective candidates must have obtained an NYSC certificate or an exemption and preferably show evidence of sponsorship for the course. Applicants currently employed in Public Health organisations or institutions are encouraged to apply. In addition, candidates must pass the postgraduate school English language proficiency test. Experience in planning, implementing, monitoring and evaluation of health programmes are advantageous. International applicants from Africa and the rest of the world who are currently serving public and non-public agencies in their respective countries are encouraged to apply.

Applicants must possess five (5) credits in related subjects at only one sitting (WASC/GCE/SSCE). The subjects should include English, Mathematics, and three other subjects

**Duration and Mode of Study**

The Programme will be on part-time mode on weekend basis (Friday and Saturday). The Programme will be completed in 5 semesters and maximum of seven (7) semesters of the University. The course work and field-based practical activity are designed to be completed in four semester-year while the last semester could be used to undertake MPH evaluation project report.

6. PROFESSIONAL AND ACADEMIC MASTERS DEGREE OF PUBLIC HEALTH (M.P.H.) IN POPULATION AND REPRODUCTIVE HEALTH EDUCATION.

(Department of Health Promotion and Education)

(i) **Objectives**

The main objective of this programme is to broaden the knowledge and competence of graduates in core areas of Population and Reproductive Health Education.

**Specific objectives are:**

(i) The programme is designed to apply knowledge from health and related disciplines to the understanding and promotion of health and its determinants.
(ii) Graduates would acquire expertise that will enable them
(a) Assume leadership positions in private and public sectors
   including education institutions.

(b) Provide services such as consultation, research, teaching
   and technical assistance requiring advanced competences
   in Population and Reproductive Health Education.

(c) Formulate policies relating to Population and Reproductive
    Health Education.

(ii) **Admission Requirements:**

a. Candidates for admission shall be holders of:

   (i) Bachelor’s degree in Medicine and Surgery (M.B.B.S) of the
       University of Ibadan or other Institutions recognized by the
       Senate and

   (ii) Bachelor’s degree (not below second class lower division) in
        Nursing, Biological Sciences, Social Sciences, Law and
        Education with adequate working experiences and demonstrated
        interest in Population and Reproductive Health Education.

b. The programme has both the full-time and part-time mode of
   admission.

   (i) The full-time admissions shall be offered to candidates who satisfy the
       Postgraduate School regulation or evidence of release by their employers to
       undertake full-time studies for candidates on full employment. Candidates found
       to have made false declaration in this respect shall be asked to withdraw from
       the University.

       In addition, applicants must also satisfy the O’ level requirements for their
       respective degree and diploma programmes in accordance with University of
       Ibadan regulations; that is: five O’ level credit passes at one sitting for
       candidates coming with courses available in University of Ibadan, College of
       Medicine and Pharmacy (under-graduates), or six O’ level credit passes at
       two sittings including English Language and other relevant science subjects.

       In addition to the qualifications applicants must have adequate working experience
       relating to health promotion and education acquired during OR after the NYSC
period. Working experiences are assessed at the Departmental Interactive session and/or oral interview with applicants.

7. PROFESSIONAL AND ACADEMIC DEGREE OF MASTERS OF PUBLIC HEALTH (M.P.H.) IN HEALTH PROMOTION AND EDUCATION.

(Department of Health Promotion and Education)

(i) Admission Requirements:

Candidates for admission shall be holders of:

(a) Bachelors degree in Medicine and Surgery (M.B.B.S) of the University of Ibadan or other Institutions recognized by the Senate

(b) Bachelor’s degree (not below second class lower division) in Nursing, Pharmacy, Biological Sciences, Health related sciences, Law, Public Health, Social Sciences and Education with demonstrated interest in Health Promotion and Education.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.

(c) In addition to the qualifications applicants must have adequate working experience relating to health promotion and education acquired during OR after the NYSC period. Working experiences are assessed at the Departmental Interactive session and/or oral interview with applicants.

8. PROFESSIONAL AND ACADEMIC MASTER DEGREE OF PUBLIC HEALTH (MPH) IN REPRODUCTIVE AND FAMILY HEALTH (RFH)

(Department of Community Medicine)
(i) **Objectives:**

The main objective of this programme is to broaden the knowledge and competence of graduates in core areas of Public Health with emphasis on Reproductive and Family Health.

(ii) **Admission Requirements:**

Candidates for admission shall normally possess Medical, Health Sciences or Social Sciences degrees from the University of Ibadan or other approved Universities recognised by senate with a minimum of Second Class Lower division. Post qualification experience shall be an advantage.

a) In addition applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects including English Language and Mathematics.

**Duration:**

The programme will be run for eighteen months with pre-determined and final project defense dates.

9. **PROFESSIONAL AND ACADEMIC MASTERS DEGREE OF HEALTH SERVICES ADMINISTRATION (M.H.S.A.)**

*(Department of Health Policy and Management)*

The M.H.S.A. degree focuses on the administration and management of public and private health sector institutions. It prepares candidates to work as health administrators, planners and managers in health systems and institutions such as hospitals, health maintenance organizations and health insurance companies.

(i) **Objectives:**
This programme aims at the improvement of health services through better administration of human, material and financial resources.

(ii) **Admission Requirements:**

(a) Bachelor’s degree in Medicine, Dentistry, Pharmacy, other Health Science or the Social Sciences of the University of Ibadan or of other approved Universities, recognised by the Senate, with a minimum of 2nd class honours (lower) division.

(b) Cognate, practical experience in the administration of health services will be an added advantage.

10. **PROFESSIONAL AND ACADEMIC MASTERS DEGREE OF PUBLIC HEALTH (M.P.H.) IN HEALTH POLICY AND MANAGEMENT.**

(Department of Health Policy and Management)

The M.P.H. (H.P& M.) prepares students for careers in any of the specialities of Public Health as policy analysts, health planners and managers in the public and private sector, public health programmes and initiatives and in state, national and international public health agencies.

(i) **Objectives:**

This programme aims at the improvement of health systems and health services through better policy development and cost-effective management of human, material and financial resources.

(ii) **Admission Requirements:**

Candidates for admission shall normally possess:

(a) A Bachelor’s degree in Medicine, Dentistry, Pharmacy, other Health Sciences or the Social Sciences of the University of Ibadan or of other approved Universities recognized by the Senate, with a minimum of Second class honours lower division.
(b) Cognate practical experience in the management of health services will be an added advantage.

11. PROFESSIONAL AND ACADEMIC MASTER DEGREE OF PUBLIC HEALTH (M.P.H.) IN POPULATION AND REPRODUCTIVE HEALTH NUTRITION

(Department of Human Nutrition)

(i) Objectives:

This programme is designed to enable participants acquire a better understanding of the relation between Population, Nutrition and Reproductive Health. The programme is also to produce graduates that have expertise to assume leadership roles in private and public sectors including educational institution and provide services such as consultation, research including surveys, teaching and technical assistance that require advanced competence in Population, Nutrition and Reproductive Health.

(ii) Admission Requirements:

Candidates should hold Bachelor’s Degree (not below Second Class Lower Division) in Human Nutrition, Nutrition and Dietetics, Biochemistry, Food Science, MBBS, and other relevant disciplines of the University of Ibadan or any other University recognised by the Senate of the University of Ibadan. In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the College of Medicine, University of Ibadan i.e. ‘O’ Level credit passes in five subjects at ONE sitting including English Language, Mathematics, Physics, Chemistry and Biology.

(iii) Status: The programme is both academic and professional.

12. PROFESSIONAL MASTERS DEGREE IN HUMAN NUTRITION AND DIETETICS (M.H.N.D.)

(Department of Human Nutrition)

(i) Objective:

This programme will produce nutritionists and dieticians with advanced knowledge, skills and practical experience required in the prevention and management of diet-related diseases in government and non-governmental agencies. The programme is also designed to remedy deficiencies in knowledge and skills in dietetics practice especially for candidates with a third class or Higher National Diploma in Human Nutrition or Nutrition and Dietetics.
Admission Requirements:

Candidates for admission should possess a B. Sc. Degree with a minimum of Third Class in Human Nutrition or Nutrition and Dietetics of the University of Ibadan or other Institutions recognised by the Senate with at least one-year post qualification experience. Holders of the Higher National Diploma (HND) in Human Nutrition and Nutrition and Dietetics with minimum of lower credit are eligible to apply. In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the College of Medicine, University of Ibadan i.e. ‘O’ Level credit passes in five subjects at ONE sitting including English Language, Mathematics, Physics, Chemistry and Biology.

Status: The programme is a full time professional degree.

13. ACADEMIC MASTER OF SCIENCE DEGREE (M.Sc) IN HUMAN NUTRITION (DEPARTMENT OF HUMAN NUTRITION)

SPECIALIZATION

Public Health/Community Nutrition
Clinical Nutrition and Diet Therapy
Food Analysis and Quality Control
International Nutrition
Food and Nutrition Policy

Objectives

This programme is designed to:

(a) To train participants to become competent nutritionist/dietitians capable of effectively working in various sectors to improve nutritional status of people nationally and globally

(b) To produce academically sound postgraduates, competent to teach and conduct research in Human Nutrition in Higher Institutions of Learning, bearing in mind the shortage of qualified Nationalists in Nigeria’s higher educational institutions as well as the wide international community.
(c) To produce postgraduates who are competent in effective planning and implementation of nutrition programmes.

(ii) **Admission Requirements:**

(iii) Candidates for admission shall normally possess a B. Sc. Degree (not below Second Class Lower Division) in Human Nutrition, Nutrition and Dietetics, Food Science, Food Science and Technology, Food Science and Nutrition, Food Science and Engineering, Biochemistry, MBBS and other relevant disciplines of the University of Ibadan or other Institutions recognised by the Senate. Candidates without nutrition background will need to audit basic nutrition courses at undergraduate level.

(iv) In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the College of Medicine, University of Ibadan i.e. ‘O’ Level credit passes in five subjects at ONE sitting including English Language, Mathematics, Physics, Chemistry and Biology.
1. PROFESSIONAL DEGREE MASTER OF PUBLIC HEALTH (M.P.H.) IN CHILD AND ADOLESCENT HEALTH

(i) Admission Requirements:

Candidates should hold:

(a) Medical degree (MBBS/BDS) certificate of the University of Ibadan or other Universities recognized by the Senate of the University of Ibadan.

(b) Good honours degree in Nursing, Psychology, Social work, Human Nutrition or other allied health professions relevant to Child and Adolescent health of the University of Ibadan and other Universities recognised by the Senate of the University of Ibadan with a minimum of 2nd Class (Lower) division.

2. POSTGRADUATE DIPLOMA IN CHILD HEALTH (P.D.C.H.)

(ii) Admission Requirements:

Candidates should hold: First Degree in Medicine (MB; BS/BDS) certificate of the University of Ibadan or other Universities recognised by the Senate of the University of Ibadan.

First degree in Nursing, Psychology or Human Nutrition of the University of Ibadan or of other Universities duly recognised by the University of Ibadan.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.
3. MASTER OF PUBLIC HEALTH (CHILD AND ADOLESCENT HEALTH)

(i) Admission Requirements

a. Candidates for admission into the MPH (Child and Adolescent Health) shall be holders of medical degree (MBBS) certified of the University of Ibadan or other Universities recognised by the Senate of the University of Ibadan.

b. A good honours degree in Nursing, Psychology, Social Work, Human Nutrition or other Allied health professionals and graduates of other relevant courses to child and adolescent health of the University of Ibadan or other Universities recognised by the Senate of the University of Ibadan. Candidates must satisfy the normal University of Ibadan basic and higher degree requirements for matriculation.

c. Holders of the Postgraduate Diploma in Child Health (DCH) of the Institute of Child Health, College of Medicine, University of Ibadan are also eligible to apply for the Master of Public Health (MPH) Child and Adolescent Health.

4. MASTER OF SCIENCE (M. Sc) IN PUBLIC HEALTH BIOTECHNOLOGY

(i) Admission Requirements

Candidates should hold:

a. Medical degree (MBBS/BDS) certificate of the University of Ibadan or other Universities recognised by the Senate of the University of Ibadan.

b. Good honours degree (minimum of second class lower division) in the Basic and Medical Sciences: Chemistry, Zoology, Biology, Microbiology, Biochemistry, Physiology, Nursing, Physiotherapy or other Allied health professionals and graduates of other courses relevant to Public Health Technology of the University of Ibadan or other Universities recognised by the Senate of the University of Ibadan.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.
5. DOCTOR OF PHILOSOPHY

i. CHILD AND ADOLESCENT HEALTH
   Child Health
   Adolescent Health
   Social and cultural aspects of Child and Adolescent Health

ii. PUBLIC HEALTH BIOTECHNOLOGY
   Molecular/Genetic Epidemiology of diseases
   Immunogenetics/immune-epidemiology
   Bioinformatics

Admission Requirements
Candidates for the degree of M.Phil and Ph.D are admitted in the first instance to the Master of Science Degree Programme. However, candidates who in addition to a good first degree, and acceptable Postgraduate degrees, may be accepted for direct admission to the M.Phil and Ph.D programmes.

6. ACADEMIC MASTER OF SCIENCE DEGREE PROGRAMME IN CHILD AND ADOLESCENT MENTAL HEALTH (MSC. CAMH)

CENTRE FOR CHILD AND ADOLESCENT MENTAL HEALTH (C-CAMH),

The MacArthur Foundation supported Centre for Child and Adolescent Mental Health (C-CAMH) is a multi-disciplinary centre within the University of Ibadan which caters primarily for the needs of Africa and the developing world in the areas of training, research and service in Child and Adolescent Mental Health (CAMH). For more detailed information please visit the C-CAMH webpage on www.ccamh.ui.edu.ng.

Programmes

The Centre runs the following training programmes:

Master of Science in Child and Adolescent Mental Health (MSc. CAMH)
Postgraduate Diploma in Child and Adolescent Mental Health (PgDip. CAMH)
Internship programmes for undergraduate and postgraduate students
Short courses in CAMH as announced(www.ccamh.ui.edu.ng,www.facebook.com/CCAMHUnibadan)
7. ACADEMIC MASTER OF SCIENCE DEGREE PROGRAMME IN CHILD AND ADOLESCENT MENTAL HEALTH (MSc. CAMH)

Training Objectives

To train Child and Adolescent Mental Health professionals with the following qualities:

Non-Clinical Aspects

1. Proficiency in the stages required to develop and support services and programmes for child and adolescent mental health especially in schools, primary health care (PHC) and the community
2. Proficiency in the development of child and adolescent mental health policy
3. Proficiency in advocating for child and adolescent mental health
4. Expertise in training other health professionals and professionals in child and adolescent mental health care
5. Proficiency in quantitative and qualitative research methodologies needed for child and adolescent mental health.

B.1.2. Clinical Skills

1. Proficiency in assessing child and adolescent development and developmental psychopathology
2. Proficiency in the diagnosis, assessment and treatment of common child and adolescent mental health problems and disorders
3. Proficiency in applying the multiple perspectives of biological, psychological and social issues to the assessment and management of child and adolescent mental health problems and disorders
4. Expertise in culturally relevant and competent care for children and adolescents mental health.

B.2. Regulations

B.2.1. Admission Requirements

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming
with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O' level credit passes at two sittings including English Language and other relevant science subjects that is, Credit in five (5) subjects including English Language and Mathematics at ONE sitting other relevant subjects accepted are Biology, Chemistry, Physics, Agriculture Science, Economics, Geography, and General Sciences. A Bachelor’s Degree with a second class lower (2-2) and above, Bachelor of Medicine, Bachelor of Surgery (MBBS) will be the minimum entry requirement. Graduates of Medicine, Psychology, Nursing, Social Work, Special Education, Health Education, Pharmacy, Physiotherapy, Occupational Therapy, Medical Sociology and other health related disciplines can apply. Experience in working with children will be an added advantage. Applicants who have successfully completed the Postgraduate Diploma in Child and Adolescent Mental Health (Pg.Dip.CAMH) can also apply.

B.2.2. Registration

Candidates for the M.Sc. CAMH are required to complete the registration formality within the period stipulated by the Postgraduate School of the University of Ibadan.

B.2.3. Duration and mode of study

This course is designed to be a full time 18-month program consisting of 3 semesters.

The M.Sc. CAMH is an academic Masters programme. Candidates admitted into the programme are eligible to proceed to M.Phil., M.Phil./Ph.D and Ph.D programmes if they obtain the required grades as stipulated in the Postgraduate School guidelines.

A. POST GRADUATE DIPLOMA PROGRAMME IN CHILD AND ADOLESCENT MENTAL HEALTH(Pg.Dip. CAMH)

C.1. Training Objectives

To train Child and Adolescent Mental Health (CAMH) professionals with the following qualities:
C.1.1. Non-Clinical Aspects

1. Understanding the stages required to develop and support services and programmes for child and adolescent mental health especially in schools, primary health care (PHC) and the community
2. Understanding of the development of child and adolescent mental health policy
3. Understanding how to advocate for child and adolescent mental health

C.1.2. Clinical Skills

4. Basic skills in child development and developmental psychopathology
5. Basic skills in the diagnosis, assessment and treatment of common child and adolescent mental health problems
6. Basic skills in applying the multiple perspectives of biological, psychological and social issues to the assessment and management of child and adolescent mental health problems
7. Basic skills in culturally relevant and competent care for children and adolescents mental health

Admission Requirements

Students will be admitted to the PgDip. CAMH programme in accordance with the regulations and the requirements of the University of Ibadan. In addition, admission criteria to this programme will be broad and inclusive to attract as many CAMH professionals in the various disciplines. Applicants must satisfy the O’Level and Bachelors degree requirements of the University of Ibadan, that is, Credit in five (5) subjects including English Language and Mathematics at ONE sitting or Other relevant subjects accepted are Biology, Chemistry, Physics, Agriculture Science, Economics, Geography, and General Sciences. A Bachelor’s Degree with a third class and above, HND, or Post-Basic qualification in Nursing will be the minimum entry requirement. Therefore, graduates of Medicine, Psychology, Nursing, Social Work, Special Education, Health Education, Pharmacy, Physiotherapy, Occupational Therapy, Medical Sociology and other health related disciplines can apply. Experience in working with children will be an added advantage.

C.2.3. Duration and mode of study

This programme is designed to be a full time 12-month program consisting of 2 semesters. The first semester will consist of mostly compulsory courses for all participants. The second semester will consist of a mixture of compulsory, required and elective courses.
FACULTY OF CLINICAL SCIENCES

1. PROFESSIONAL DEGREE MASTER OF PUBLIC HEALTH IN COMMUNITY HEALTH (C.H.)

(Department of Community Medicine)

(i) Objectives:

The MPH (Community Health) programme will train doctors in all essential specialty areas of modern public health as well as clinical care to enable them to look after the health and well-being of any naturally existing or statutorily created communities in keeping with the modern practice of the discipline of Community Medicine and Public Health.

The programme is open to young medical and dental graduates after their Youth Corps and those engaged in public and private medical practice who wish to acquire further training in Community Medicine. The degree is registrable with professional regulatory bodies in the discipline.

(ii) Admission Requirements:

Candidates for this course shall be holders of the MBBS or BDS degrees of the University of Ibadan as well as those holding similar medical qualifications recognised by the University.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of
Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.

**Duration:**

The programme will be run for eighteen semesters with pre-determined and final project defense dates.

---

2. **PROFESSIONAL DEGREE MASTER OF PUBLIC HEALTH IN OCCUPATIONAL HEALTH (OH)**

(Department of Community Medicine & Primary Health Care)

(i) **Objectives:**

The MPH (O.H.) programme is designed to train physicians to provide preventive and curative health care services to workers in industry. The programme will provide physicians with skills to enable them perform their role as company/occupational physician in the growing number of industries in the country. The degree is registrable with the relevant professional regulatory bodies in the discipline.

The course is open to young medical graduates, physicians from general practice and those already engaged in industry.

(ii) **Admission Requirements:**

Candidates for this course shall be holders of the MBBS degree of the University of Ibadan as well as those holding similar medical qualifications recognised by the University.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy

82
(under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.

Duration:
The programme will be run for eighteen months with pre-determined and final project defense dates.

3. PROFESSIONAL DEGREE MASTER OF SCIENCE DEGREE PROGRAMME IN PSYCHIATRY

(Department of Psychiatry)

(i) Objectives:
The main objectives are:

(a) To provide advanced training in psychiatric theory and research methodology. The programme shall provide the advanced theoretical knowledge necessary for academic psychiatrist and impart the skills required for the understanding and conduct of research in bio-behavioural medicine;

(b) To stimulate interests and confidence in the conduct of research in mental and behavioural sciences;

(c) To set the graduate on a course of life-long interest in seeking cutting-edge and up-to-date information in the fields of psychiatry and behavioural sciences and

(d) To prepare the graduates for a career in academic and clinical psychiatry.

(ii) Admission Requirements:

(a) Candidates for admission to the programme shall normally be M.B.B.S. graduates of the University of Ibadan or of other Universities/Institutions recognized by the Senate.
(b) Candidates must have completed both the pre-registration internship and the National Youth Service.

(iii) **Duration:**

The programme shall be designated: Master of Science (M.Sc.) in Psychiatry. It shall run for a minimum of three semesters full-time and five semesters part-time.

4. **PROFESSIONAL DEGREE OF MASTER OF HEALTH SCIENCE (M.H.S) IN POPULATION AND REPRODUCTIVE HEALTH**

(*Department of Obstetrics & Gynaecology*)

Candidates for admission to this programme shall be holders of Medical Degree (M.B.B.S.) of a good first degree in Health or the Social Science of this University or other Universities recognised by the Senate of the University of Ibadan. Candidates with Diploma in related health or Social Science Subjects (equivalent to HND at upper credit level) and five years minimum experience in a relevant field may be considered.

Candidates must fulfill the other entry requirements of the University of Ibadan for Higher Degree courses.

The programme shall last minimum of three semesters and maximum of five semesters for full-time students and minimum of five semesters and maximum of seven semesters for part time students including course works and projects.

5. **MASTER OF SCIENCE DEGREE REPRODUCTIVE BIOLOGY**

(*M.Sc., MPhil, MPhil./Ph.D in REPRODUCTIVE BIOLOGY*)

(*Department of Obstetrics & Gynaecology*)

Candidates for admission to this programme shall be holders of Medical Degree (e.g. MBBS) of this University or other Universities recognised by the Senate of the University of Ibadan.

Candidates must fulfill the other entry requirements of the Universities of Ibadan for Higher Degree Courses.
The programme shall last a minimum of three semesters and maximum of five semesters for full-time students and minimum of five semesters and maximum of seven semesters for part-time students including course works, and projects.

6. **PROFESSIONAL POSTGRADUATE DIPLOMA IN POPULATION AND REPRODUCTIVE HEALTH (PGD)**

(Department of Obstetrics & Gynaecology)

Candidates for admission to this programme shall be holders of Medical Degree (MBBS) of a recognised good first degree in Health or Social Science of this University or other Universities recognised by the Senate of the University of Ibadan. Candidates with Higher National Diploma (HND) or its equivalent, NRN/SRM with at least two years experience in related health or social sciences may be considered.

Candidates must fulfill the other entry requirements of the Universities of Ibadan for Higher Degree Courses.

The programme shall last two semesters for full-time students and four semesters for part-time students including course work project and three months of field work internship.

7. **POSTGRADUATE DEGREE PROGRAMME IN BIOETHICS**

(Department of Surgery)

(i) **Objectives:**

This academic training programme is designed to produce:

a. highly qualified graduates with sound knowledge in basic and applied bioethics.

b. graduates who have a profound understanding of the ethical basis of moral action and are capable of meaningful and purposeful application of such.
c. graduates who are capable of initiating research in bioethics by employing standard quantitative and qualitative methods.

d. graduates who are able to engage in teaching, research and collaborative studies in Bioethics and related disciplines.

e. graduates who are found suitable for higher academic degree and for attainment of same.

(ii) Admission Requirements

Candidates for admission into the M.Sc (Bioethics) program shall be: holders of medical degree certificate of the University of Ibadan or other Universities recognised by the senate of the University.

Graduates of any related humanities and science discipline with a good honours degree of the University of Ibadan or other Universities recognised by the senate of the University.

All candidates must satisfy University of Ibadan basic and higher degree requirements for matriculation.

(iii) Duration

The duration of the programme shall normally be three semesters for full-time studies or five semesters for part-time. A candidate shall be asked to withdraw if he has not fulfilled the requirements for award of the degree after a maximum of 5 semesters of full-time studies or 7 semesters of part-time studies.

8. MASTER OF SCIENCE DEGREE IN SURGICAL SCIENCES

(Department of Surgery)

Objectives:

This training programme is designed to produce:

- Highly qualified graduates with sound basic and applied surgical principles
Surgical personnel who have a profound understanding of the scientific basis of surgical principles to ensure meaningful and purposeful application of such
• Surgical personnel who are capable of initiating researches by employing basic scientific tools
• Surgical personnel who are able to engage in teaching, collaborative studies and provide excellent services to surgical units in teaching and specialist hospitals as well as international health organizations

Regulations

(a) Admission Requirements

Only M.B.B.S. degree graduates of the University of Ibadan or other University approved by Senate are eligible for admission into the Master of Science degree programme

(b) Candidates for the M.Sc (Surgical Sciences) programme are required to complete their registration within three weeks of the beginning of the first semester.

(c) Duration and Mode of Studies:

The duration of the programme shall normally be three semesters for a full-time course and five semesters for a part-time course. A candidate shall be asked to withdraw if he has not fulfilled the requirements for the award of the degree after a maximum of 5 semesters of full time and 7 semesters for part time.

9. MASTER IN BIOMEDICAL EDUCATION

(Department of Surgery)

• Objectives:
This training programme is designed:

• to produce graduates who are knowledgeable in curriculum development
• to produce highly qualified graduates with sound basic and applied teaching skills
• to improve the methods of evaluation of teachers in the biomedical sciences

(ii) Admission Requirements:
Graduates of the College of Medicine of the University of Ibadan and those of the Colleges and Faculties of Medicine and Health Sciences of the West African consortium, and others in the biomedical sciences from University of Ibadan and from other Universities approved by Senate of University of Ibadan are eligible for admission into the programme.

Students will be admitted to the M.Sc programme in accordance with the regulations and requirements of the University of Ibadan.

Applications will be sought from the staff at each of the six participating universities (and teaching hospitals) in the West African consortium, but applications will only be considered if the applicant is also nominated by the Dean of his/her home institution.

Candidates for the M.Sc (Biomedical Education Methods) programme are required to complete their registration formalities within the period stipulated by the Postgraduate School of University of Ibadan.

(iii) Duration:

The duration of the programme shall normally be four semesters. There are two semesters in one session. It shall be run as a distance learning course. Lecture delivery and other interactions shall be mostly through distance and e-learning methods. A candidate shall be asked to withdraw if he has not fulfilled the requirements for award of the degree after a maximum of eight semesters.

10. PROFESSIONAL DIPLOMA (PGD) IN RADIOTHERAPY TECHNOLOGY

(Department of Radiotherapy)

Bachelor of Science Degree (Not lower than a third class) in Imaging Science (Radiography) or Diploma (not below lower credit) in Diagnostic Radiography registrable with Radiographers Registrations Board of Nigeria from recognised institution.

11. ACADEMIC MASTER DEGREE OF SCIENCE (M.Sc) GLOBAL HEALTH.

(Department of Community Medicine & Primary Care)

MSc Global Health with specialization in
The Programme:

Global health has been described as an area for study, research and practice that places a priority on improving health and achieving equity in health for all people worldwide. Global health emphasizes transnational health issues, determinants, and solutions; involves many disciplines within and beyond the health sciences and promotes interdisciplinary collaboration; and is a synthesis of population-based prevention with individual-level clinical care.

The Masters degree in Global health program will turn out graduates who will be knowledgeable in Global Health Metrics that can bridge the data gap as well as provide evidence on the impact of various on-going initiatives. They would also be able to provide leadership for a translational agenda for research within the context of Global Health.

Objectives:

The objective of the MSc programme in Global health is to produce Global Health experts who have skills and core competencies needed to work in the highly engaging field of transnational health. It is also our expectation that the graduates would be positioned to assist governments and institutions to reduce the evident inequities in health as a public health goal.

Admission Requirements:

Candidates for this course shall be holders of the MB,BS, BDS, or any other relevant health and social science degrees of the University of Ibadan as well as those holding similar qualifications recognized by the University.

Past or current work with an international or national health related agency will be of added advantage. In addition to the above requirements, applicants must satisfy the Five (5) ‘O’ Level Credits at ONE sitting including English Language or ‘O’ Level requirement in respect of first degree course of study (in University of Ibadan undergraduate Admissions).

12. ACADEMIC MASTERS DEGREE IN PAEDIATRICS AND INTERNATIONAL CHILD HEALTH

(Department of Paediatrics)
Objectives
The main objective of the programme is to provide a course of instructions aimed at developing the knowledge and understanding of the management and control of diseases in childhood with emphasis on endemic childhood diseases in the tropics.

Admission Requirements:
Admissions shall be open to medical graduates who have a MBBS of the University of Ibadan or MBBS/MBChB from other universities recognized by the Senate of the University of Ibadan. Candidates may be admitted to part-time registration if they are academic staff members of the University or if they satisfy the Postgraduate School that facilities for their work as part-time students shall be adequate.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects..

Duration and Designation of Programme
The M.Sc (Paed & ICH) programme shall last for a minimum of three semesters for full-time study and five semesters for part-time study. For full-time study, course work would occupy two semesters while the mandatory project work would be done during the third semester. For part-time study, course work would be taken over three to four semesters while the project would be done over one to two semesters.

The degree shall be designated M.Sc (Paed & ICH)

13. ACADEMIC MASTERS DEGREE IN OTORHINOLARYNGOLOGY

(Department of Otorhinolaryngology)

Objective
The main objective of the programme is to provide a course of instructions aimed at developing the knowledge and understanding for the management of Ear, Nose, Throat, Head and Neck diseases, teaching and research in Otorhinolaryngology and related sciences.
Admission Requirements

To be eligible for admission into the M.Sc. Otorhinolaryngology programme, and without any prejudice to the rules and regulations governing the award of postgraduate degrees of the University of Ibadan, a candidate must:

a) Possess the basic medical degree in Medicine and Surgery (M.B;B.S.) or its equivalent from University of Ibadan or any other University recognised by the Senate of the University of Ibadan.
b) Have completed the mandatory one-year internship recommended by the Medical and Dental Council of Nigeria and hold current license to practice Medicine in Nigeria.
c) Prospective candidates must have NYSC discharge certificate (for Nigerian graduates only).
d) All candidates must fulfill other basic requirements as stipulated by the Postgraduate School of the University of Ibadan.
e) The M.Sc. Otorhinolaryngology shall be undertaken as a Full-Time training programme.
f) Candidates may be admitted to Part-Time registration if they are academic staff members of the University or if they satisfy the Postgraduate School requirements that the facilities for their work as Part-Time students shall be adequate.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.

14. MASTERS DEGREE IN PSYCHO-ONCOLOGY

(Department of Radiation Oncology)

Bachelor of Science Degree (Not lower than a second class lower) in Psychology, Social Work, Nursing, Guidance and Counselling, Medical Sociology and MBBS graduates and professionals from allied disciplines.
In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language, Mathematics and any 3 other Science subjects including Chemistry, Geography, Biology, and Physics.

15. POSTGRADUATE DIPLOMA IN RADIOTHERAPY TECHNOLOGY (P.G.D. RADIOTHERAPY TECHNOLOGY)

(Department of Radiation Oncology)

Admission Requirements

(a) Bachelor of Science Degree (not lower than a third class) in Imaging Science (Radiography) or Higher National Diploma (not below lower credit) in Diagnostic Radiography from recognized institution registrable with Radiographers Registrations Board of Nigeria and from recognised institutions.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language, Mathematics and any 3 other Science subjects including Chemistry, Geography, Biology, and Physics.

FACULTY OF DENTISTRY

DEPARTMENT OF ODONTOLOGY

PG Diploma in Forensic Odontology

(a) The PG Diploma shall be undertaken as a 12 month full time programme.
A Dental resident doctor in training may be considered on recommendation and approval by the training Institution.

**Admission requirements**

Students will be admitted to the Postgraduate Diploma in Forensic Odontology program in accordance with the regulations and the requirements of the University of Ibadan, a candidate must:

- a) Possess the basic professional degree in Dentistry (BDS) or its equivalent from University of Ibadan or any other University recognised by the Senate of the University of Ibadan.
- b) Bachelor’s degree in para-dental Science from University of Ibadan or any other University recognised by the Senate of the University of Ibadan.
- c) Have completed the mandatory one-year internship programme recommended by the Medical and Dental Council of Nigeria, para-dental Board and hold a current license to practice Dentistry/ Para-dental science in Nigeria.
- d) Have NYSC discharge certificate/ exemption certificate (For Nigerian graduates ONLY)
- e) All candidates must fulfill other basic requirements as stipulated by the Postgraduate School of the University of Ibadan.

**OBJECTIVES**

The main objective is to provide Nigeria and possibly the West Africa sub-region with dentists and other qualified personnel equipped for the practice of Forensic Odontology. Specifically, the objectives of this program are to equip successful candidates:

1. With necessary tools to perform Forensic dental identification of human remains
2. With valuable asset to an identification team and work with the myriad of agencies and scientific disciplines.
3. With capacity of intending trainee to gather information and material intelligently without compromise from disaster sites, and, be able to put together reports in a manner that will aid early identification
4. With the skills to gather and put together evidence for legal presentation.
5. Who will can provide a report following consultation request for examining: oro-facial trauma, age assessment bite mark analysis, health status of a dentition and dental anthropology – recent and historic
INSTITUTE FOR PEACE AND STRATEGIC STUDIES

1. MASTER OF HUMANITARIAN AND REFUGEE STUDIES (M.H.R.S.)

(Institute for Peace and Strategic Studies) (IPSS)

(i) Objectives:

The M.H.R.S. Programme is a multidisciplinary course designed for meeting some of the most urgent needs on contemporary Africa’s human security agenda in armed conflicts, humanitarian crisis and intervention, disaster and refugee management. The Programme seeks to foster understanding and knowledge about problems thrown up by those phenomena, as well as the designing of appropriate policies and action measures for linking relief work, development and conflict resolution. Another key objective of the Programme is directed at building self-sustaining capacity for responding to humanitarian needs, aimed at helping to develop professionally trained and competent personnel for project design and implementation of policies in the area.

(ii) Admission Requirements:

Candidates seeking admission into the M.H.R.S. Professional Degree Programme must possess at least an Honours degree in the humanities, social sciences, sciences, law or any other cognate disciplines from the University of Ibadan or other Universities recognised by Senate with a minimum of 3rd Class. Applicants with Higher National Diploma (HND) with at least lower credit will also be considered for admission. Preference shall be given to sponsored candidates doing jobs related to refugee and humanitarian activities in State ministries, industries, multilateral agencies, non-governmental organizations, etc. In addition, candidate must satisfy the first degree matriculation requirement of the University of Ibadan, or their equivalent from other recognised universities.

Note: The Programme will be run both on Part time and Full time bases.

(iii) Duration:

The Programme is of three semester duration, which includes three months of supervised internship, possibly at refugee camps, rehabilitation camps for
internally displaced persons, conflict management departments within regional and sub-regional organizations, UN agencies with humanitarian mandates in Africa. It is also run as a part time programme in line with the postgraduate school regulations for part time programmes.

(IV) Scholarship opportunity is annually provided by the German Exchange Service (DAAD) for Non-Nigeria applicants. For more information on the scholarship, the Non-Nigeria applicants are advised to forward their application to this e-mail: secretarycepacs@gmail.com

2. PROFESSIONAL MASTER DEGREE IN MEDIATION, ARBITRATION AND NEGOTIATION (M.MAN)

(Institute for Peace and Strategic Studies) (IPSS)

Objectives

The main objective of the Professional Master Degree Programme in Negotiation, Mediation, Arbitration (M.NMA) programme is to establish a world class graduate training and research programme, which will meet the needs of professionals for the development and acquisition of practical skills in ADR. The specific objectives are:

- To provide a forum for basic and advanced research and training in NMA;
- To expand the academic and professional competence of persons in the specialised field of NMA on an interdisciplinary platform;
- To strengthen human capacity building for out-of-court dispute settlement professionals by increasing the pool of ADR experts;
- To promote advanced research on conflict resolution and the application of the pool of knowledge within practitioner contexts; and
- To establish institutional connections between ADR professionals and the general public in the interest of peace and development.

Target Groups

Target groups of the M.NMA course is: Lawyers and Judicial officers; Law Enforcement Agents; Scholars and Researchers; Human Resource Managers; Officials of Humanitarian Agencies; Volunteers; Traditional Rulers; Community Leaders; Religious Authorities; Public Servants; Officials of State and National Boundary Commissions; and Representatives of Non-Governmental Organisations and Community-Based Organisations.
Admission Requirements for Professional Master Degree in M.NMA

Candidates must satisfy the minimum matriculation requirements of the University of Ibadan and admission requirements of its Postgraduate School. They must possess at least an honours degree from an accredited university in the humanities, social sciences, science, law or any of their cognate disciplines. Preference shall be given to sponsored candidates doing related jobs in state ministries, industries, missions, and such other occupations. Holders of a Higher National Diploma (HND), with at least a lower credit, would be eligible to apply.

Duration

The duration of the M.NMA programme shall normally last for three academic semesters of full-time study, two of which would be spent on course work while the third would be on field work and internship. A part-time component of the programme shall normally last for a period of five semesters, four of which will be for course work and the fifth semester for field work and internship.

3. MASTER OF SCIENCE (MSS) DEGREE IN STRATEGIC STUDIES

(Institute for Peace and Strategic Studies IPSS)

The Master of Science (MSS) programme in Strategic Studies is a unique programme and the first of such to be established by any university/department in Nigeria.

The uniqueness and strength of the Ibadan master’s degree in Strategic Studies lie not only in its being novel but because the programme also harnesses the potential pool of teaching and research competence of the Institute for Peace and Strategic Studies for an intensive course of studies and seminars in subjects that are increasingly becoming of awesome interest and significance to Nigeria and her needs.

The programme is directed at three Objectives: Academic, Utilitarian, and Policy-Relevance. The programme aims at producing on a regular basis, the requisite manpower of informed specialists in both the civilian (NB: Civilian must possess Certificate of National Defense College Nigeria before applying for this programme) and military sectors that can deal with issues of public and/or military policy touching on Nigeria’s security and interest.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained
between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

4. PROFESSIONAL MASTER IN DISASTER RISK MANAGEMENT (DRM) (Institute for Peace and Strategic Studies IPSS)

Admission Requirements

Admission is open to graduates of this university and other approved universities with a good honours degree in the Social Sciences, Public Health and related disciplines, Agriculture and Forestry, Veterinary Medicine, Environmental Science, Town Planning, Science and Engineering or equivalent professional qualification such as H.N.D., etc with a minimum of lower credit. Working experience, especially in disaster risk management in government and the private sector.

In addition to the above requirements, applicants must satisfy the ‘O’ Level first degree matriculation requirements of the University of Ibadan i.e five O’ level credit passes at one sitting or six O’ level credit passes at two sittings including English Language OR Teacher Certificate Grade II obtained between 1967 and 1981 with merit or credit passes in English Language and four other relevant matriculation subjects.

5. PROFESSIONAL MASTER (MPBD) DEGREE IN PEACE BUILDING AND DEVELOPMENT.

(Institute of Peace and Strategic Studies)

The Programme:

The programme is aimed at providing students drawn from Nigeria, Africa and other parts of the world with, primarily a practical understanding of the issues of peace and conflict in the modern world, and with particular reference to Africa, based on perspectives drawn from a range of academic disciplines. The focus of the programme is on how to produce peaceful outcomes from conflict situations.

Admission Requirements:

A candidate for admission into the programme shall be a graduate of the University of Ibadan or other approved universities who have been admitted to the appropriate degree of Bachelor. Holder of Higher National Diploma (Lower Credit) or other relevant professional qualifications who are working in related field shall also be considered for admission.
A candidate who is a degree holder and who has worked for three years (excluding National Youth Service) or a candidate who holds the Higher National Diploma with five years working experience in relevant agencies will have additional advantage.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

**FACULTY OF LAW**

1. **MASTER OF LAW (LL.M)**

(i) *The Programme:*

The LL.M degree programme is conducted on an interdepartmental basis.

(ii) *Admission Requirements:*

Admission is open to any holder of a Bachelor’s degree in Law of this University or any other recognised University. Candidates may be required to undergo a selection process. They are therefore encouraged to provide their e-mail addresses and telephone numbers to facilitate invitation for the interview. You will be required also to produce your Call to Bar and Law School Certificates.

1. PROFESSIONAL MASTER’S IN DEVELOPMENT PRACTICE (MDP) PROGRAMME

(Centre for Sustainable Development)

Admission Requirements:

A candidate for admission to the MDP programme must be a graduate of a university/institution recognised by the University of Ibadan Senate with a minimum of second class lower division, in the field of Medicine, Health Sciences, Social Sciences, Management Sciences, Agriculture, Engineering, and Humanities. Holders of the Higher National Diploma and Third-Class degree from institutions recognised by the Senate of the University of Ibadan may be considered for admission. The applicant must satisfy minimum matriculation requirements of the University of Ibadan i.e. a minimum of five subjects at ordinary level, including English Language, all passed at credit level at not more than two sittings. Relevant work experience in development practice will be an advantage. Admission is open to applicants from all over Africa and beyond.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

2. POSTGRADUATE DIPLOMA, PROFESSIONAL AND ACADEMIC MASTER’S PROGRAMMES IN INDIGENOUS KNOWLEDGE AND DEVELOPMENT

(Centre for Sustainable Development)

Duration

The Master’s Degree programmes in Indigenous Knowledge will be of three Semesters duration. The first two semesters will be for the taught courses and seminars while the third semester is for internship and writing of project report. The Postgraduate Diploma will be for duration of two semesters.

Admission Requirements
Applicants to any of the programmes must satisfy the matriculation requirements of the University of Ibadan.

(a) Admission to **Postgraduate Diploma** (PGD) is open to candidates with minimum of lower credit in Higher National Diploma or equivalent as recognised by the University of Ibadan from time to time.

(b) Admission to the **Professional Master’s** in IK Degree Programme is open to graduates of this University with at least third (3rd) Class, or of other approved universities in the Social Sciences, Humanities, Sciences, Health Sciences, Technology, Applied Sciences. Holders of Higher National Diploma with upper credit or candidates with Higher National Diploma with lower credit plus the Postgraduate Diploma in IK may also be offered admission.

(c) Admission to **Academic Master’s** in IK Degree Programme is open to graduates of this University with at least Second Class Lower (22) or of other approved universities in the Social Sciences, Humanities, Sciences, Health Sciences, Technology, Applied Sciences.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

3. **PROFESSIONAL MASTER DEGREE IN TOURISM PROGRAMME (PMTD)**

(Centre for Sustainable Development Practice)

Candidates should possess a minimum of Second Class Honours (Lower Division) in Agriculture, the Sciences, the Social Sciences or the Humanities. Relevant working experience would be at an advantage or HND or its equivalent (with a minimum of lower Credit grade) in Agriculture, the Sciences, the Social Sciences or the Humanities with a minimum of 3 years’ working experience. In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.
4. PROFESSIONAL MASTER’S DEGREE PROGRAMME IN INTEGRATED RURAL DEVELOPMENT IN AFRICA (PROSIRDA)

(Centre for Sustainable Development Practice)
The Professional Master’s Degree programme is aimed at teaching and research in Integrated Rural Development. It is geared towards training serving and aspiring rural development workers and others who wish to advance their knowledge, skills and expertise through specialized training in integrated rural development. The long-term objectives of the programme are:

1) to increase knowledge and enhance learning about rural development and sustainable development;

2) to promote transparency, accountability, professionalism, and efficiency in integrated rural development;

3) to generate alternative frameworks and guidance for rural development, seeking to strengthen national electoral systems;

4) to encourage the use of sustainable development practices in integrated rural development;

5) to identify cost-effective elements in sustainable design; and

6) to highlight the innovations and encourage knowledge-sharing in integrated rural development.

Admission Requirements

(a) Admission to the MSIRDA Degree Programme is open to graduates of this University with at least Third Class or of other approved universities in the Social Sciences, Humanities, Sciences, Health Sciences, Technology, and Applied Sciences.

(b) Candidates with Higher National Diploma with upper credit are also considered for admission. This however will depend on having appropriate years of post-graduation experience related to sustainable rural development.

In addition, applicants must also satisfy the O’ level requirements for their respective degree and diploma programmes in accordance with University of Ibadan regulations; that is: five O’ level credit passes at one sitting for candidates coming with courses available in University of Ibadan, College of Medicine and Pharmacy (under-graduates), or six O’ level credit passes at two sittings including English Language and other relevant science subjects.
5. ACADEMIC MASTER’S AND POSTGRADUATE DIPLOMA IN CLIMATE AND SOCIETY PROGRAMME (CSP)

(Centre for Sustainable Development Practice)

Programme

The Postgraduate Degrees in Climate and Society Programme are aimed at teaching and research in Climate Change issues and development. It is geared towards training serving and aspiring development workers and others who wish to advance their knowledge, skills and expertise through specialised training in development in the context of Climate Change.

Objectives:

1. train middle and advanced level human resource on the science and impacts of climate change,
2. equip professionals with adequate skills to understand key issues, methodologies and approaches in climate change mitigation, adaptation and resilience,
3. bridge the gap between the scientific research and decision-making communities in climate change, its impact and adaptation issues,
4. increase understanding of methodologies and approaches in climate change adaptation,
5. promote resilience competencies in climate change-relevant contexts, including teamwork, communication and problem solving, and
6. strengthen ability to synthesise multi-disciplinary information and develop problem solving strategies using integrative approaches and systems thinking.

Admission Requirements

Applicants to the programme must satisfy the matriculation requirements of the University of Ibadan for their cognate disciplines.

a) Admission to the Academic Master’s in CSP is open to graduates of this University with at least 2nd Class Honours lower division or of other approved universities in relevant disciplines.

b) Admission to the Postgraduate Diploma (PGD) in CSP is open to graduates of this University with at least a third (3rd) Class or other approved universities in relevant disciplines as well as
holders of Higher National Diploma (HND), with minimum of lower credit from recognized institutions.

**Duration:**

The Academic Master’s Degree in Climate and Society Programme will be of three semesters duration of full-time study. The first two semesters will be for taught courses and seminars while the third semester is for Research Project. Internship is compulsory for all programmes at Centre for Sustainable Development Practice.

In addition to the above requirements, applicants must satisfy the ‘O’ Level/First degree matriculation requirements of the University of Ibadan, i.e. ‘O’ Level Credit passes in five subjects at ONE sitting or 6 ‘O’ Level credits at TWO sittings including English Language and other relevant matriculation subjects.

---

**The Centre for Entrepreneurship and Innovation (CEI),**

**Introduction:** The Centre for Entrepreneurship and Innovation (CEI), is a MacArthur Foundation initiated centre which main goal is to build capacity for Entrepreneurship and Innovation at the highest level in Nigeria and the region. The National Universities Commission (NUC), in furtherance of its mission to entrench entrepreneurship education in Nigerian Universities directed that these Postgraduate Certificate, Diploma and Degree programmes be floated. The CEI has a strong linkage with International Centres of Excellence for Entrepreneurship studies and with the private sector.

**The Objectives of the Postgraduate Programmes are:**

- To provide students with the necessary theoretical and practical background in entrepreneurship
- To initiate and undertake research and project activities in entrepreneurship
- To provide a platform for students to enter into the ecosystem of entrepreneurship educators and practitioners
- To develop the capacity of intending and practicing entrepreneurs for optimum performance

**The Following Programmes are available for the 2017/2018 session**

**Academic Master (M.Sc in Entrepreneurship Education)**
The duration of the Academic M.Sc shall be a minimum of three (3) semesters and a maximum of 5 semesters for full-time students.

For those taking the course on part-time basis, the minimum duration shall be 5 semesters, while the maximum is 6 semesters.

Applicants are required to have a minimum of Second Class Lower (2\textsuperscript{2}) in ANY discipline. They should also possess 5 credits at one sitting as well as credit in English Language at O’level.

**Professional Master (M.Sc. in Entrepreneurship Studies)**

The duration of the full programme shall be a minimum of three semesters for full-time students. The programme, which shall be in modules, shall allow the entrepreneurs the flexibility to undergo the programme in convenient portions and be awarded the commensurate certificate or diploma.

I. A student who completes a minimum of one semester on the Professional track and passes a minimum of 15 units (Max 20) including the compulsory courses for the first semester and wishes to take a break from the programme shall be awarded a **Certificate in Entrepreneurship Studies**.

II. A student who completes a minimum of two semesters on the Professional track and passes a minimum of 30 units (max 40) including compulsory courses for the second semester and wishes to take a break from studies shall be awarded a **Postgraduate Diploma in Entrepreneurship Studies**.

III. To be awarded the **M.Sc. Degree in Entrepreneurship Studies**, a student must complete the minimum of three semesters and pass a minimum of 45 units (Max 60) including all the compulsory courses and internship (equivalent of Industrial Training)

For those taking the course on part-time basis, the minimum duration shall be 5 semesters, while the maximum is 6 semesters.

Application into the programme are required to have a minimum of lower credit Higher National Diploma (HND) or its equivalent as recognised by the University of Ibadan Senate from time to time. Degree holders in any discipline with the basic admission requirements for the University of Ibadan shall also be considered.
FOREIGNERS WITHIN AND OUTSIDE NIGERIA

Non-Nigerian applicants within and outside Nigeria should obtain an invoice from the Postgraduate School website and pay into the banks using draft/bank cheque of the value generated on the invoice, payable to the Postgraduate School, University of Ibadan.

   (c) **M.Sc. Epidemiology**

   (a) **M.Sc. B.Sc. Biostatistics**

   This programme is open to graduates of the Mathematical Sciences such as Mathematics, Statistics and Computer Science. Candidates must obtain at least second class lower degree at graduation. Prospective candidates must have obtained a NYSC certificate or an
exemption and must provide evidence of sponsorship or availability of support for the course.

(b)

(c)

M.Sc Clinical Epidemiology

This programme is only open to graduate of Nursing, Physiotherapy, human nutrition, medical laboratory sciences, radiology, dentistry and medicine, candidates must have profession medical degree or a second class upper degree in the cognate discipline. Candidates must show evidence of two years working experience in cognate settings including NYSC certificate or exemption.

(d) M.Sc Epidemiology:

This programme is open to graduates of Nursing, Physiotherapy, human nutrition, medical laboratory sciences, radiology, dentistry and medicine or public health. Candidates must have professional medical degrees or a second class upper degree in the cognate discipline. Candidates must show evidence of two years working experience in cognate settings including NYSC certificate or exemption.

Graduates of Education, Basic Medical Sciences, such as Anatomy, Physiology, Biochemistry, Botany, will not be considered and need not apply.

**Department Of Banking and Finance**
Banking and Finance

5 ‘O’ Level Credits at ONE sitting or 6 ‘O’ Level Credits at TWO sittings including English Language, Mathematics, Economics, and any other two or Three subjects.

(a) The Programme
This is a three semester full-time programme. The programme consists of taught courses leading to the academic degree of Master of Science in Banking and Finance. The programme is designed to meet the needs of graduates with strong motivation for academic career in the discipline.

(b) Admission Requirements:
The programme is designed for those with Second Class Honours Upper division in Banking, Finance, Accountancy, Economics, Mathematics, Business Administration, Banking and Finance and/or any other related disciplines.

Also, Candidates with Second Class Honours Lower division in Banking, Finance, Accountancy, Economics, Mathematics, Business Administration, Banking and Finance and/or any other related disciplines may be considered for admission on the possession any of the following:

Minimum of three years working experience in any banking and financial or related institutions; a University staff or a staff of the Central Bank of Nigeria or any other Banking or Financial institution.

A postgraduate Diploma in Business Management or related discipline from a recognized University.

Possession of Professional Qualifications such as ACIB, ACA, ACIS, ACCA etc

Final selection will be based on oral/ written interview of short-listed candidates.

Department Of Marketing and Consumer Studies

5 ‘O’ Level Credits at Admission Requirements
| MARKETING AND CONSUMER STUDIES | Candidates for admission to the programme shall normally be graduates of the University of Ibadan or of other approved Universities or holders of equivalent qualifications recognized by Senate of the University of Ibadan. All candidates must satisfy University of Ibadan matriculation requirements of five ‘O’ Level credit passes including Economics, English and Mathematics at one sitting or six credit passes at two sittings.

Minimum entry requirement is the equivalent of a Second Class Honours Upper division in Marketing, Economics and/or other Business Management/Administration and related discipline.

Candidates with a Second Class Honours Lower division in Marketing, Economics and/or other Business Management/Administration and related discipline may be offered admission provided they possess any of the following.

At least 3 years working experience

A Postgraduate Diploma in Marketing, Economics, Business Administration/Management from a recognised university by the University Senate.

Possession of Professional Qualifications such as CIMN, ACIM, APCON, ACA, ACIS, ACCA, etc.

Prospective candidates must have NYSC discharged certificate (for Nigerian graduates only) |

INSTITUTE OF EDUCATION

Full and Part Time Programmes
M.Ed, M.Phil and Ph.D Programmes in Educational Evaluation
i. Construction and Validation of Measurement Instrument
ii. Evaluation of Educational Achievement
iii. Public Examinations
iv. Programme Evaluation
v. Psychological Testing
The programme is for three Semesters for M.Ed (full time), 6 and 8 semesters for full and part time Ph.D. Programmes respectively.

PGDE and M.Ed. In-Service Programmes: in Ibadan, Port-Harcourt, Lagos and Ilesha in
Students are to access their lectures in:
i. Ibadan Centre (University of Ibadan),
ii. Lagos Centre (St Augustine College of Education, Yaba, Akoka, Lagos) and
iii. Ilesha Centre (Osun State College of Education, Ilesha)

a. Educational Evaluation
b. Curriculum Development in:
i. Arts and Languages
ii. Information Technology
iii. Mathematics
iv. Pre-Primary and Primary Education
v. Science
Each of the programmes is for four Semesters.

Five ‘O’ level credit passes at ONE sitting or six ‘O’ level credits pass at TWO sittings to include English Language and any other four or five relevant subjects from Arts, Social Science and Sciences.
